

TOPFINISH 2

NANO REFINISHING POLISH

PRODUCT DESCRIPTION

This is a nano-abrasives based refinishing polish able to permanently remove holograms, swirls and polishing marks resulting from previous coarse compounds, which are more visible on dark colours. **TOPFINISH 2**, recently powered by our R&D department, is the best solution for the extreme refinishing action even of the most delicate and difficult surfaces. Thanks to its balanced and effective blend of nano-abrasives and high performance polishing agents, it allows to achieve the highest standard of perfection and brightness in a safe, simple and quick way.

PHYSICAL PROPERTIES

Colour: Light blue
 Physical form: Liquid-creamy
 Odour: Light and pleasant
 Density: 0,970 g/ml
 Flammability: Not flammable
 Type of surface: Gelcoat, lacquer

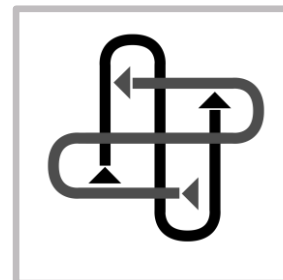

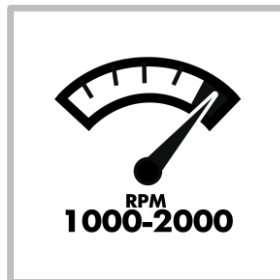

HOW TO USE

Shake before use, then apply by variable speed polisher, selecting either an anti-scratch wool pad **SL3** for a more aggressive action or a medium-soft blue foam pad for a softer and cleaner one. Pour a small quantity of compound on the polisher-pad. Let the polisher turn at low revolutions, speeding them up (1000-2000 RPM) while spreading the paste with crossed movements. Pay attention at not overheating the surface. If necessary, please repeat the application more times. Eventually, wipe the surface with a clean cloth.
