Concrete furniture and fixtures handcrafted in Brisbane

Our Concrete

Fibre reinforced concrete (FRC) is a blend of concrete and fibres. This combination increases the strength of the material which allows us to create pieces far thinner than those created with traditional concrete. This makes our FRC products lighter than traditional concrete and easier to transport.

Our FRC is a beautiful material which can be featured in any indoor or outdoor space.

Product Range

We handcraft concrete furniture and bathroom fixtures from our industry leading workshop in Brisbane.

All our concrete pieces are made to order however, the efficiency of our production allows us to keep our lead times short.

Our concrete range consists of the following:

basins

mirrors

side tables

coffee tables

dining tables

Why specify Blend's concrete?

01 Sealed to protect from staining

High-quality sealers are applied to protect our concrete from scratching and staining. Our Care + Maintenance guide, available on our website, provides more detail on how to best care for our concrete.

02 13 full depth colours

Coloured oxide is mixed into the concrete so that the piece is coloured all the way through. The colour isn't painted on.

03 Elevated concrete finish

It's our concrete all the way through. Our pieces feature the beautiful and natural qualities of concrete such as colour variation and raw visual texture

04 Lighter than traditional concrete

Our concrete is lighter than traditional concrete meaning our concrete furniture and fixtures are moveable

05 Protected by our warranty

Blend provides a warranty that its pieces will be free from defects in workmanship and materials for a period of 24 months after the date of delivery or delivery and installation by Blend.

Product specifications

Concrete basins and concrete mirrors

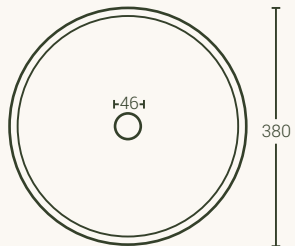

Surface mounted basins

Blend Concrete Design offers four different handcrafted concrete surface mounted basin designs, available in 13 concrete colours.

All of Blend's basins have a 46mm waste hole, making them compatible with a 32mm or 40mm waste.

Comet Basin

All dimensions are estimated. Due to the handcrafted nature of the products, there may be slight variations.

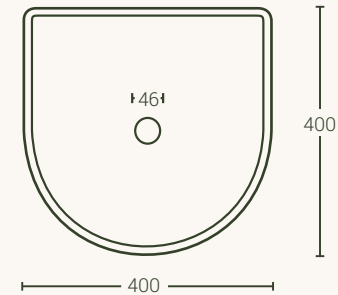

Protected from staining and scratching

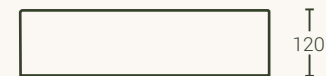

Blend applies high quality sealants to protect its basins from staining and scratching. To avoid damaging the sealer, we recommend basins are cleaned regularly with a non-abrasive cloth and a gentle water-based cleaning product.

Crescent Basin

All dimensions are estimated. Due to the handcrafted nature of the products, there may be slight variations.

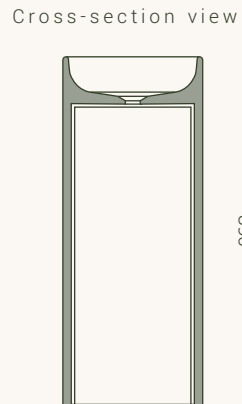

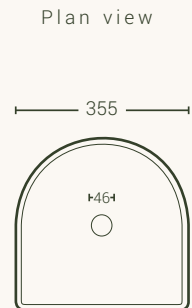

Pedestal basins

Our pedestal designs are significantly smaller than vanities with cabinetry making them the perfect choice for powder rooms, half baths and smaller bathrooms.

The designs are sleek and beautiful yet functional and practical.

Modern design multiple applications

A compact and sleek design available in three variations to suit a variety of applications. This design is available as a pedestal, surface mount or wall hung basin.

All dimensions are estimated. Due to the handcrafted nature of the products, there may be slight variations.

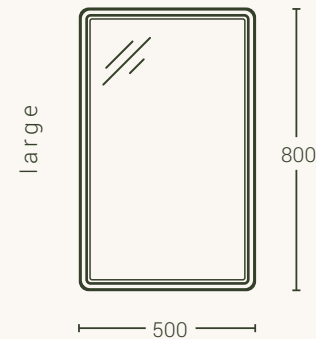

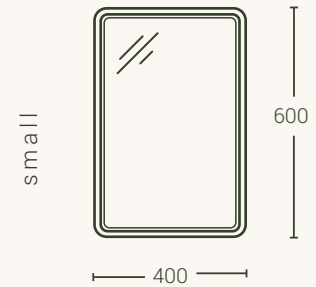

Concrete mirrors

With four designs to choose from, Blend Concrete Design's handcrafted concrete mirrors are the perfect addition to any bathroom, living space, dressing room or walkway.

Each design comes in two sizes, 13 colours and optional LED backlighting.

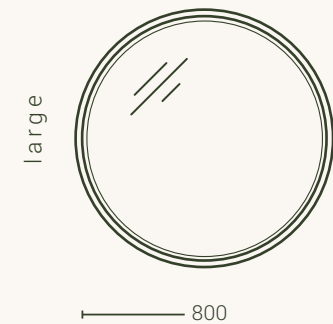

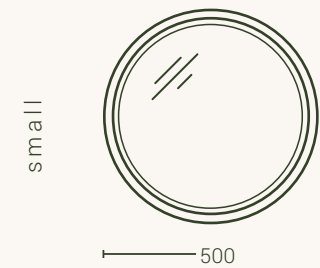

Stellar mirror
