

Introducing Swytch Tools™

**Combining double-edged cutting and opposite angle scoring for maximum cutting points and long lasting blade performance.**

Ideal for the professional film installer, vinyl wrapper, commercial craftsman or hobbyist. This 9mm blade offers the following advantages:

- Dual cutting edges to increase cutting life
- 70 degree angles providing 20 blade segments for more cutting efficiency
- Stainless steel construction for long life
- Fits in any standard 9mm or 18mm safety knife
- Offers both right hand and left hand cutting ability

The dual cutting is ideal - one blade edge for rough cutting of material and the other edge for precision cutting of film or weeding. The blade fits in your standard 9mm industry knives including the NT Cutter and Olfa knives for the seasoned pro.

We supply these blades in 10 pack plastic storage boxes for safe handling.
