

InduProof® Pro
TKG-107-TOUCH-IP68-WHITE-BACKL

PRODUCT FEATURES:

- Keyboard with silicone enclosure
- Completely waterproof and dustproof
- Can be fully disinfected and cleaned
- Integrated touchpad
- Four stages of back-lighting
- Locking key to prevent any incorrect commands being triggered

TECHNICAL DATA

Number of keys: 107
Switch technology: carbon contacts on gold
Shift force: 1.5 N
Shift path: 1.3 mm
Service life: each key can be used approx. 1 million times

Protection class: IP68
Enclosure material: silicone
Enclosure colour: white
Interface: USB
Power supply: 100 mA

Cable length: 2 m
Weight: ca. 913 g
Operating temperature: 0 °C to + 70 °C
Storage temperature: -30 °C to + 70 °C
Dimensions: 377 x 157 x 15 mm

TECHNICAL DATA FOR TOUCHPAD

Operating principle: capacitive
Dimensions: 60 x 42 mm

Documentation: CE declaration, IP test, guarantee certificate, EMC test

| Cat. no. | Product description | Keyboard layout |
|----------|--|-----------------|
| KG22227 | TKG-107-TOUCH-IP68-WHITE-BACKL-USB-DE | DE |
| KG22228 | TKG-107-TOUCH-IP68-WHITE-BACKL-USB-US/EU | US/EU |

Other layouts, configurations and interfaces are available on request

1. KEY FUNCTIONS:

- Touchpad-tapping*: + + **F2** > Activates and deactivates the tapping function
- Lighting levels: > > > > > OFF
- Key lock: > Press and hold for 2 seconds

2. SPECIAL FUNCTIONS:

- Lighting: Keyboard has 4 lighting stages that can be controlled via the key.
- Clean mode: To activate or deactivate the clean mode, hold this key down for 2 seconds. This deactivates the key function and the touchpad. You can then clean the keyboard without triggering any incorrect commands.
- *Touchpad-tapping: Touchpad tapping allows you to use different functions by typing the touchpad surface once or several times (e.g. in word processing: single tap to position the cursor, double tap to select paragraphs)
