THE EPICURE VIII

BY GRZEGORZ MAJKA

Description:

"No man is an island entire of itself; every man is a piece of the continent, a part of the main."

The phrase "no man is an island" expresses the idea that human beings do badly when isolated from others and need to be part of a community in order to thrive. Exactly, like our new piece of art called THE EPICURE which could not present its beauty by itself. Only with the help of the other elements reveals the one complete part; one amazing complete "island." Luxury doesn't always follow the common patterns. Luxury goes beyond and almost like one of the best gourmets joins varied experiences, ingredients, recipes into one.

Following this idea, we have selected the unique volcanic material such as natural quartzite Venom.

Satin finish highlights the irregular shapes, veins, and the pits of the stone element designed by the Mother Nature.

The solid brass elements in "Satin" finish as the perfect fundamentals of the stone table tops highly influence the sophisticated and "Tasty" look of the whole part.
