

Greenwell™

WATER SAVERS

Greenwell is an ingenious Australian water saving invention, fast gaining favor in North America over traditional tree watering bags. Greenwell is manufactured in Ohio by Dinesol Plastics out of recycled materials. Greenwell's themselves can be reused on multiple installations.

Experts agree that effective tree watering in the establishment phase is critical to a plant's survival. By eliminating water runoff and evaporation through fast deep penetration, Greenwell saves water and makes the most of every watering cycle.

PRODUCT FEATURES...

- SAVES WATER ENSURING FAST DEEP ROOT WATERING
- **NO RUN OFF ON FLAT OR SLOPING GROUND**
- INCREASE NEW TREE SURVIVAL RATES
- **PROTECTS TREES**
- HOLDS MULCH, FERTILIZER, PLANT FOOD AND STOPS BIRD & WIND SCATTER
- **KEEPS GRASS AWAY FROM PLANT BASE**
- MADE FROM 'SAFE TO GROW' IN RECYCLED UV STABILIZED POLYPROPYLENE
- **MADE IN THE US - OHIO** 
- PATENTED REUSABLE ZIP JOIN. CAN BE RETROFITTED TO ESTABLISHED TREES
- **TWO SIZES- 19" 7 GALLON AND 26" 13 GALLON**
- THEFT PROOF AND VANDAL PROOF
- **NEAT AND INCONSPICUOUS**
- MORE EFFICIENT USE OF REMOTE WATERING VEHICLES - OPERATOR DOESN'T HAVE TO LEAVE THE CABIN
- **NO NEED FOR WINTER REMOVAL UNLIKE WATERING BAGS**
- LOWER THE OVERALL COST OF TREE ESTABLISHMENT AND MAINTENANCE

HOW DOES GREENWELL STACK UP?

ASPECT	GREENWELL	SLOW RELEASE BAGS
Winter	> Product stays in place all year round > Holds mulch which helps to insulate the root ball	May require removal inns belt areas during winter
Vandalism	Vandal proof	Vulnerable to being punctured
Theft	Difficult to remove without a shovel	Prone to theft
Aesthetic	Blends in nicely	Eyesore
Insects	Creates a barrier / rim can be treated with pesticides	Favourite insect nesting place in humid areas
Litter		Sometimes used as a trash bag in urban environments
Water Saving	> Ample 7-13 gallons > Fast fill - can be remotely filled by a watering truck with a boom mechanism	> 20 Gallons > Slower hand fill - attendant has to leave vehicle
Sloping Ground	Cuts into sloping ground and will sit level	Requires flat ground
Watering Pattern	Rapid & even watering encourages wide root spread	Slow and narrow promotes uneven root spread
Trunk Protection	Protects the trunk from powered garden equipment such as weed whackers	Hugs the tree trunk and can cause trunk rot
Life Span	Up to 10 years	Up to 5 years

SPECIFICATIONS

REGULAR SIZE:

TOP DIAMETER - 16.9"
 BASE - 19.5"
 HEIGHT - 7.5"
 CAPACITY - 7 GALLONS
 PALLET QUANTITY - 200

LARGE SIZE:

TOP DIAMETER - 23.6"
 BASE - 26.4"
 HEIGHT - 9.8"
 CAPACITY- 13 GALLONS
 PALLET QUANTIFY - 144

CITYWIDE SERVICES ENDORSEMENT...

Greenwell installations by Municipal Councils in Australia, Europe and North America exceeds 500,000. Australia's largest user of Greenwell, Citywide Services subcontract to municipal councils on the East coast and maintain in excess of 1.5 million trees.

Citywide conducted their own case study and determined a survival rate of >97% up from 80% when using earthen berms.

Citywide also measured water savings of 25% during maintenance.

Please Refer Citywide case study at www.citywide.com.au under Innovation - Greenwell

MUNICIPALITIES USING OR TRIALLING GREENWELL:

UNITED STATES

- ALABAMA - BIRMINGHAM, MONTGOMERY
- CALIFORNIA - BERKELEY, PALO ALTO, ROSEVILLE, SUNNYVALE
- FLORIDA - DELAND
- MARYLAND - BALTIMORE
- MASSACHUSETTS - TREE RIVER
- MINNESOTA - ST PAUL FRIENDSHIP FOREST PROJECT
- WASHINGTON - WENATCHEE

CANADA

- BRITISH COLUMBIA - CHETWYND, KELOWNA, NANAIMO, RICHMOND, SAANICH, SOOKE, SURREY, VICTORIA
- ONTARIO - MARKHAM

GREENWELL WILL ENSURE A MUCH HIGHER SURVIVAL RATE ON NEW PLANTINGS.

THEY WILL

SAVE WATER!

Greenwell Benefits Specific to North American Market:

- Works well with deer netting to protect tree trunks
- Holds mulch insulating the root ball helping young trees survive their first winter
- Used as an alternative to watering bags, Greenwell solves the problem of winter removal
- Home owners find it easy to water street trees from their front yards
