REEF-SEAS PIECES (10 PACK)

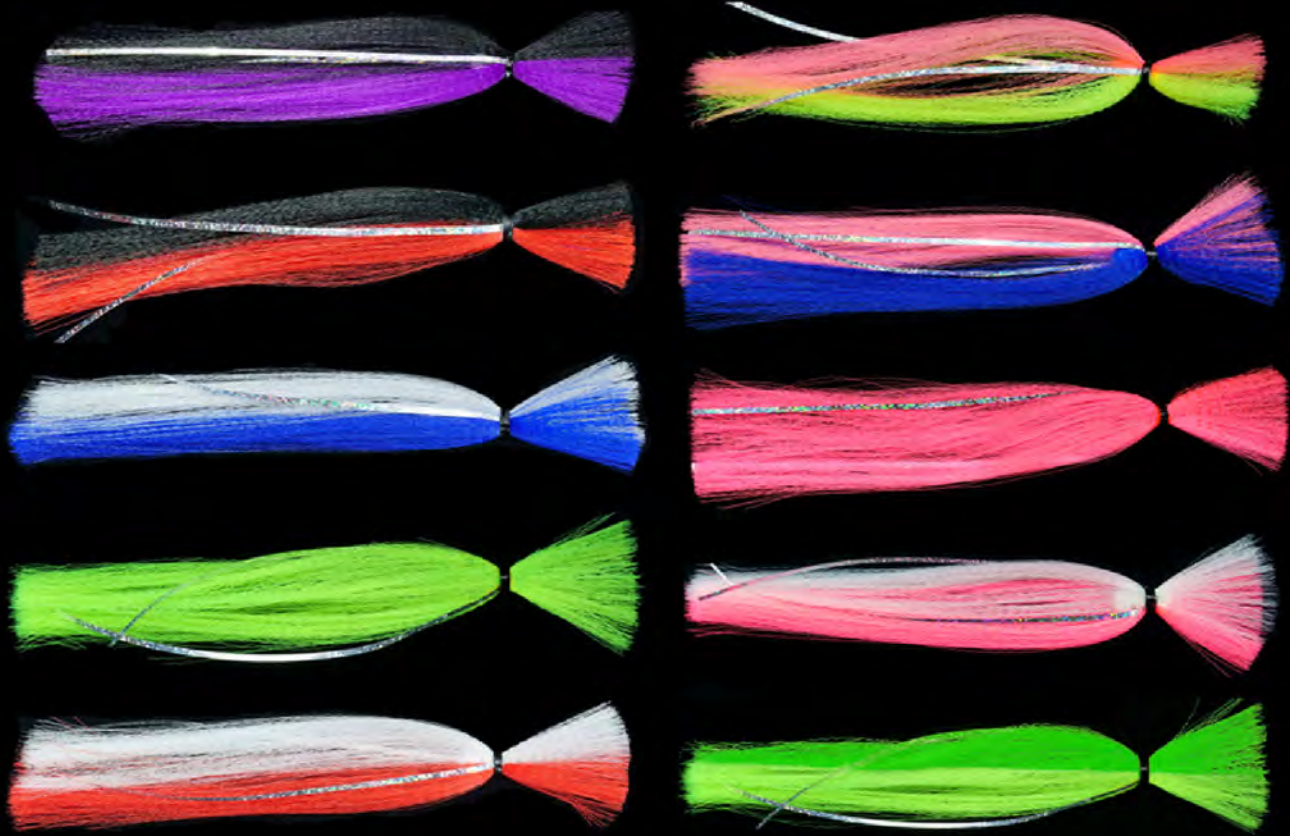

The GO TO lure for Yellowtail Snapper. Just bait the lure with belly strips, silver sides, live shrimp or shrimp chunks. Anchored in a current, feed your line out into the chum trail so bait floats with the current. This lure will naturally fall with the chum and the fish can't tell the difference. Adjust weight for lighter or stronger currents. Also great for Mangrove Snapper and other reef fish.

KINGFISH JIG

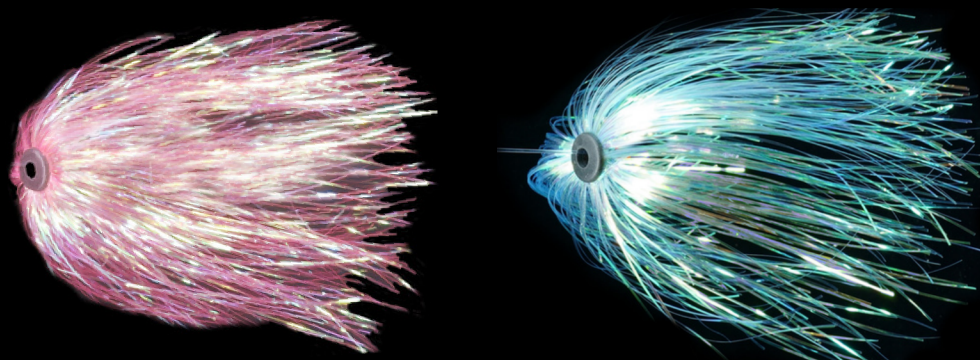

The Kingfish Jig's double hooks and flashy Mylar strip make this jig tempting to hard-striking kingfish. Load it with a Spanish sardine or other natural bait to appeal to the kingfish's royal sense of smell. Double hooks reduce the need for wire leader when fishing for toothy kings, that fish with keen eyesight and are notorious for stealing baits, shredding leaders and leaving lines dangling.
