

## HALLOWEEN EYEBALL JELLY

### Ingredients

500g raspberry jelly

1 tin of whole pitted lychees

1 small tin of black pitted cherries

### Method

You can either buy pre-made jelly, or make your own with the jelly crystals. Please read the jelly packet for instructions.

Drain fruits.

Half the cherries, and then place in the centre of the lychees to fill the hole to create the eyeballs.

Layer the eyeballs in the jelly and place on top for presentation.

For best presentation, serve alongside other Halloween speciality recipes. Enjoy!
