

Leap Chain Roller Installation Manual

Included

Chain Roller

(1) M5 x 12mm bolt

(2) M5 washers

Installing Leap Chain Roller

1. Insert the threaded end of the Chain Roller into the hole provided on the drive-side of the Leap frame
Note: Threaded end does not thread into frame, it only acts as a pin
2. Align the Chain Roller mounting tab with the threaded boss on the Leap frame
3. Secure mounting tab with the supplied M5 x 12mm bolt
4. Route your chain over the top of the ChainRoller and connect chain with master link
