

## ASSEMBLY

**1** Start with the racks installed on the bike and the deck removed.

**2** Your Xtracycle bike has a R and L side. The R side has the gears and chain. CarryAll bags have sides too - consult the tag on the back to see which side of the bike the bag should be installed on, and which end faces forward. Here the left side bag is being installed, the open loops at the top will hold the bag to the rack.

**3** Pull the sewn end of the strap through the plastic ring. This is a tight fit. It's often helpful to feed one edge through on the diagonal, then pull the rest of the strap through. Do this for all the loops along the top of the bag.

**4** The front and rear ends of the bag are secured with velcro loops. Feed the webbing around the rack, through the nylon ring, then pull it tight and close the velcro patches onto each other. Repeat on the front loop.

**5** Here is the closed velcro loop - it is holding the bag securely to the rack and the velcro patches are overlapping fully. If there is not enough overlap, the bag could come loose while in use.

**6** The bottom edge is secured in the same way as the front and rear ends. There are two velcro loops, one front and one rear, that fasten in the same way. The rear velcro loop is secured around the chainstay - again, be sure to overlap the velcro segments fully.

**7** The bottom front velcro loop wraps around the chainstay between the front upright and the vertical stay. This will prevent it from sliding backwards, so placement is important.

**8** That completes the installation of the left side bag! Check that all your connections are secure, then repeat the process to install the right side bag. After both bags are mounted, the deck can be installed.

# CarryAlls

# XTRACYCLE

**CARE**  
After each trip be sure to clean out your CarryAlls thoroughly. Don't wash in washing machine. Use mild soap, warm water and a soft brush to clean fabric. Hang dry outdoors or in a well-ventilated area. Do not machine dry.

**DOUBLE YOUR WARRANTY**  
Simply register your PorterPack within 14 days and receive a warranty extension. Go to: [www.xtracycle.com/register](http://www.xtracycle.com/register) to qualify.

**WARRANTY**  
CarryAlls are guaranteed to be free from manufacturing defects for one (1) year from the original date of purchase. This warranty applies only to the original buyer and is not transferable. This warranty does not cover damage from use of this product outside of its intended range or that resulting from modification or neglect. It also does not cover wear and tear resulting from the normal use of the product. Please contact your Xtracycle dealer if you believe you have a warranty claim.

## ATTENTION

- ⚠ Max Weight Limit 50 lbs per bag
- ⚠ Place heavier items at the bottom of the carrier.
- ⚠ Large loads in your CarryAlls may affect the handling of your bicycle. Test ride your bike under safe conditions when going big.
- ⚠ Properly secure all cargo inside the Cargo Bay or cinched tight to the bike with the FreeLoader Sling.
- ⚠ Follow installation instructions carefully, so the CarryAll is properly attached.
- ⚠ No dangling straps! Loose straps can cause damage or abruptly stop bicycle.
