*Norway Series*

Exclusiff Seating System is one of the leading OEM Office solution company in India. We design and manufacture seating solutions for the offices of today and tomorrow.

Established in 1996 as a 15 employee company with a 2000 sq. Ft. facility we have since then grown tremendously and expanded our reach to all over India and beyond. We are headquartered in Mumbai, and our facility includes a 1,50,000 sq.ft. factory with a production capacity in excess of 30,000 chairs per month.

We manufacture all chair components in-house resulting in stock-in-hand and better quality control. This gives us an edge in terms of delivering orders at the customer's convenience. Another advantage of doing so is that we can offer a myriad of customization options to suit their requirements. Also our stringent testing criteria ensure that we produce the best quality office chairs that make working a pleasure.

Exclusiff has a strong foothold in the market and is ever growing. We have a diverse, ever-expanding, and satisfied client base from various industries including IT, Banking, Insurance, BPO and Retail.

Exclusiff invests in the best design talent and the latest in design and manufacturing technology to produce stylist, ergonomics chairs and chair components.

Our comprehensive guarantees and after sales service ensures that our clients worry less about seating and focus more on their businesses.

Exclusiff - the name synonymous with futuristic seating systems.

## Do's

- Always follow the assembly directions completely. Make sure all the pieces are placed in proper order so that the chair stays intact and together.
- Pay special attention to making sure the casters or wheels are fully inserted into the base of the unit.
- Only use office chairs (with a pivoting base) that have a 5 legged base.
- Every 12 months or so, inspect the chair to make sure all the parts or components of the chair are tightened to ensure stability. Look for defective casters, loose securing bolts, loose arms, broken adjustable mechanism.
- Always keep the base of the chair completely on the floor.
- Many office chairs are equipped with a tension control on the mechanism to compensate for different body weights. Always ensure that the control is properly adjusted, resulting in a smooth and controlled tilt motion.

## Dont's

- Don't lean so far back in your chair that the wheels or legs lift up off the floor. Leaning can cause the chair to slip out from under you, cause structural damage, or can loosen important connections that can cause the chair to fall apart.
- Never put all your weight at the very front edge of the chair. If you sit too far forward, the chair can tip over.
- Don't leave electrical appliances on upholstered chairs. Fire can result if they overheat. Be careful when smoking or carrying lighted material around upholstered chairs.
- Mock leather chairs or PU leather chairs cannot be wiped with a wet cloth as it can cause peeling on the surface.

## Certificate of Registration

This is to certify that

### EXCLUSIFF SEATING SYSTEMS

F6, 4TH FLOOR PINNACLE BUSINESS PARK, SHANTI NAGAR,  
MAHAKALI CAVES ROAD, ANDHERI EAST MUMBAI
