To Sprayer Head

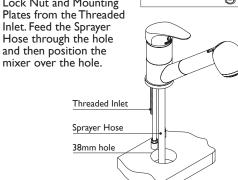

# NOTE

Before drilling through the bench surface, check that there is a clear area directly underneath for the sprayer hose to retract. Allow 750mm for normal operation.

Using a 38mm hole saw, cut a neat hole through the bench top.

Remove the Inlet Boss, Lock Nut and Mounting

2

REMOVE

Mounting Plates

Lock Nut

Inlet Boss

Slide the Mounting Plates on to the Threaded Inlet and fasten with Lock Nut.

Firmly fasten the Inlet Boss to the Threaed Inlet. Please ensure that the rubber gasket is still in the top of the Inlet Boss.

Lock Nut

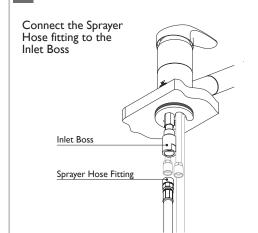

Rubber Gasket

3

Attach the Counter Weight to the Sprayer Hose with the two screws supplied. Adjust the Counter Weight to approximately 200mm from the bottom of the Sprayer Hose.

4

5

Connect Hoses to the Mixer Inlets. Ensure that the Red Marked Hot Water Hose is conected to the inlet that is marked with Red Indicator Tape.

Red Indicator Tape

Hot Water Hose

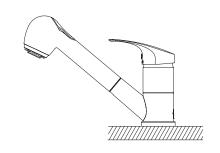

(Red Marked)

Cold Water Hose
(Blue Marked)

6

Connect Hoses to water supply.

CHECK AND TEST FOR LEAKS

recommended working pressur

150-500 KPa

maximum hot water temperature

75 degrees

#### NOTE:

- If the pressure exceeds or is likely to exceed 550kpa, an approved pressure limiting device must be installed.
- Flush out all pipe work prior to installation. - If the water temperature exceeds 75°C, an approved
- tempering valve must be fitted.
   Installation should comply with Australian standard AS3500.1 or relevant local authority requirements. Showers may not be suitable for use within:
- Gravity-fed water systems
- Some instantaneous hot water systems; or

• Pressure supply less than 150kPa; NOTE:The 500kPa maximum water supply pressure does not apply to fire service outlets.

Failure to comply with the above may void all warranties.

### WARRANTY:

Please refer to the full warranty statement enclosed with the product before installing. Or visit www.phoenixtapware.com.au to download a copy.

## MAINTENANCE AND CARE:

- Products should be cleaned with mild liquid detergent or soap and water.
- Do not use cream cleaners or citrus based cleaning products, as they are abrasive.
- Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

#### DISCLAIMER:

While we aim to ensure the specifications shown are correct at the time of printing. Phoenix Tapware reserves the right to make modifications without prior notice. Always use the physical product measurements for mark-ups and roughing-in as the line drawing shown may differ from the actual product over time.

\*All measurements are shown in millimeters.
