38 BOTTLE CAPACITY

Storage of up to 38 Bordeaux (750ml) bottles. Perfectly shaped housings provide ample storage for different shaped bottles including Champagne and magnums.

PREMIUM OAK SHELVES

Telescopic sliding oak shelves allow for easy placement, storage and removal. The smooth movement prevents disturbance of wine sediment. Made in Italy, these racks are crafted from the same oak as traditional wine barrels.

UV RESISTANT GLASS

Solar light and UV rays can alter a wine's structure, ruining its balance and flattening its scent. Layered glass panels in Smeg's built-in wine cellars protect wine from damaging light whilst providing maximum transparency.

TWO VARIABLE TEMPERATURE ZONES

Two independent temperature zones can be set at the correct temperature for storage of red, white and sparkling wine.
