

## DigesterPak™

Chesterton's Digester Packing Solution (DPS) combines the best characteristics of individual high-performance packing to bring you the highest reliability in digester sealing on new and older equipment.

### Style 324 Super-Lon® Packing

Conforms to stuffing box irregularities and solidifies in place to create a tough close-tolerance anti-extrusion ring. Ideal for use in applications where excessive clearances exist.

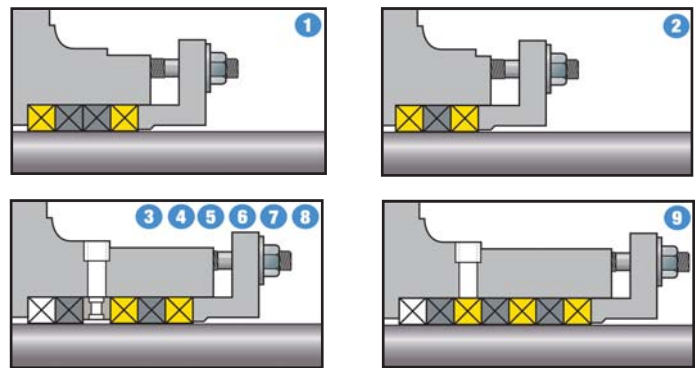

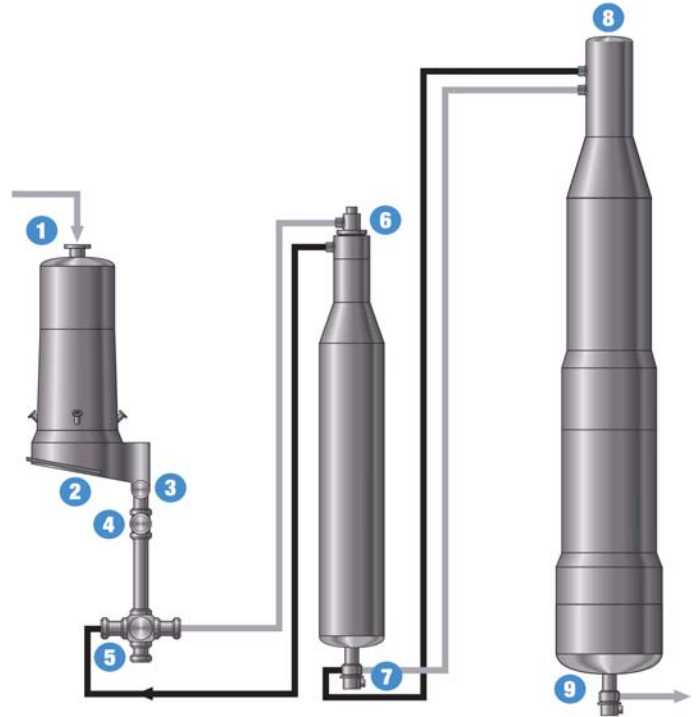

### Style 477-1T PTFE Impregnated Carbon Yarn Packing

Provides a dense packing ring that transfers load effectively to the DigesterPak™ for reliable sealing.

### DigesterPak™ Carbon Reinforced PTFE/Graphite Packing

The DigesterPak™ combines a graphite coated PTFE braided packing with carbon reinforcement to provide outstanding resilience, long term sealing and superior leakage control.
