

BrewZilla Micro 50L CIP

Washdown Cart KL25515

The two 50L(nominal) vessels (65L brimfull) vessels you can use one for sanitising and the other for cleaning.

Made completely from stainless steel with sanitary butterfly valves, heavy duty pump, PID temperature controller and on castor wheels you can easily move this around the brewery and wash out each tank as required.

This system is made to order and can be setup for single phase or three phase operation.
