

### MISS LINKS

Designed in Melbourne and made exclusively for professional women, **Miss Links cufflinks** feature an array of classic, feminine motifs, pearls, semi-precious stones and enamel designs. Entrepreneur Dianna Butterworth founded Miss Links after regularly experiencing frustration at finding the same dreary or masculine pieces, or having to resort to wearing her husband's cufflinks. Each Miss Links piece is made with .925 sterling silver, and exemplifies elegant, chic style. [misslinks.com](http://misslinks.com)

### STYLISH SPEAKERS

*Gadget you can't live without:*

My iPhone. Running an online business means I need to access my emails at all times. I'm often out and about, so being able to access everything I need via my phone makes life much easier!

*Fave tool to keep me organised is...*

I store all my documents, photos and videos in Dropbox, which means I can access everything I need from any device, anywhere in the world. It's also great for sharing large files with colleagues rather than sending cumbersome emails.

*What do you always have on your desk?*

I always have my Native Union Handset. The handset plugs into my phone and cuts a minimum of 96 per cent radiation when speaking on the phone. Pretty good huh? It's a popular item that's stocked in the online shop.

*When I'm buying clothes for work I love...*

Both Shopbop and ASOS. I do most things online, including clothes shopping. Delivery is quick and I never pay any postage because I buy over the minimum spend.

*Are you a Mac or a PC?* I'm a Mac girl. Every device we have in our house is an Apple!
