## FOR IMMEDIATE RELEASE

### Strike's New Samsung Galaxy Tab Active2 Enterprise Tablet Holder

BRISBANE, Jan. 29, 2018 – Strike Group, the Brisbane-based handsfree tech company, has released its new enterprise grade tablet holders for Samsung's latest heavy-duty smart device: the Samsung Galaxy Tab Active 2. Strike Group is the first to release a [Strike Alpha Car Cradle for Samsung Galaxy Tab Active 2](#).

Continuing its revolutionary take on the enterprise mobility market, Samsung has upgraded its pioneering 8-inch display, 1280x800-pixel resolution, rugged tablet from IP67 to IP68 – protecting the device against water and dust.

The device is designed for all industries: sectors that engage in heavy-duty work such as construction or law enforcement will benefit from the Samsung Galaxy Tab Active2.

'After the success of our [Galaxy Tab Active car cradles](#), we at Strike are delighted to develop new tablet mounts that benefit companies in the enterprise market,' said Strike CEO Chris Ryan, 'Our newest cradle variants for the Samsung Galaxy Tab Active 2 are already being shipped worldwide.'

Strike's Alpha Car Cradle for Tab Active 2 ensures that the device will sit firmly in place while you work in tough conditions and harsh outdoor and indoor environments.

Simply place the Galaxy Tab into the dock, mount it on your vehicle or place of choice, and it will begin charging. It is powered with POGO connector for superior charging capabilities in your Samsung Galaxy Tab Active2.

Furthermore, with Samsung's newest facial recognition feature, users would not be required to remove their gloves to access its fingerprint sensor. Strike's innovative and durable mounting options will bring the most out of the tablet.

The Strike electrical engineering team has also designed the DC/DC converter to OEM Automotive manufacturing standards to ensure the fastest charge, with voltage spike protection, and no Electromagnetic Interference (EMI).

Strike specifically developed a 3 amp 12/24v for [pro-installation version](#) and 2.4 amp for [DIY version](#) of Samsung Galaxy Tab Active 2 Holder charger to ensure that mission critical applications never run out of power when using the car mount. The [Samsung Galaxy Tab Active2 Lockable Vehicle Mounts](#) comes with lockable features to ensure premium tablet security. Users can mount and use the device in public without worrying about theft.

Additionally, Strike has also released a Multi-Device Desktop Charging Dock + Samsung Galaxy Tab Active 2 Cradle value pack. The [Multi-Device Desktop Charging Dock bundle](#) includes the Strike Desktop Charging Dock and the Strike Alpha Samsung Galaxy Tab Active2 car cradle. With the dock's modular design, one can easily attach the tablet to the set-up and charge it hassle-free.

The Strike Alpha Samsung Galaxy Tab Active2 Holder is mountable in all vehicles (cars, boats, trucks, vans, planes, helicopters, forklifts, agricultural equipment), or even as a desktop or wall mount stand.
