### **Strike Releases Phone Holder for Panasonic Toughbook FZ-L1 Handheld**

Brisbane, March 13, 2019 – As the world-leading developer and manufacturer of hands-free technology for handset and mobile devices, Strike Group has designed an enterprise quality phone holder for the Panasonic Toughbook FZ-L1.

Panasonic has released a powerful tablet with a sophisticated and classic exterior. The Panasonic Toughbook L1 is slim and sleek but is packed with applications and features that make data collection more efficient in retail stores, warehouses field service, transportation, delivery, and other industries. The Toughbook L1 gives you the option for a straight-shooting barcode reader and can be used on portrait or landscape mode.

The Panasonic Toughbook FZ-L1 comes in a Wi-Fi with GPS or 4G LTE WWAN with Satellite GPS version. It has a massive power capacity so you can work on the tablet for long hours. It is also weather and drop proof. The screen will still be touch sensitive even when wet or wearing gloves.

To optimise the efficiency and increase productivity using the Panasonic Toughbook FZ-L1, Strike introduces the Strike Alpha Panasonic Toughbook FZ-L1 tablet holder. The design and development of this Strike Alpha cradle were based on enterprise user needs. Strike Alpha Panasonic FZ-L1 vehicle mount securely holds your Panasonic device and comes with a built-in charger. Each Alpha Car Cradle is designed to withstand up to 25g in the event of an accident. Panasonic Toughbook L1 charging cradle also allows users to boost the mobile signal by connecting to a reputable external antenna.

Strike Alpha Panasonic FZ-L1 Car Cradle comes in two versions. The pro-installed version has a 3 amp 12/24v charging power while the DIY version has 2.4 amp.

“Strike is always on the lookout for new enterprise devices. We want to be the first to design innovative tablet holders for high specs devices such as the Panasonic Toughbook FZ-L1 that can help businesses,” says Chris Ryan, CEO of Strike Group.
