FOR IMMEDIATE RELEASE

Strike Releases Phone Holder for the latest rugged Panasonic Toughbook FZ-T1 Handheld

Brisbane, November 9, 2018 – Strike Group, the world-leading developer and manufacturer of hands-free technology for handset and mobile devices has designed a robust phone holder for the latest Panasonic TOUGHBOOK® T1.

Panasonic's latest Toughbook FZ-T1 Android handheld launched in June 2018 is visually slim and lightweight. It comes with an easy viewing 5" display, 12-hour battery life and an enterprise-class, straight line barcode reader. The Toughbook handheld is available in two model options: Wi-Fi only or Wi-Fi and 4G capabilities for voice and data.

The striking and robust design of the new Panasonic Toughbook is perfect for mobile workforces in a wide range of roles and industries, along with retail and hospitality, manufacturing, transportation and logistics.

To complement the efficiency of this newest Panasonic Toughbook, the Strike Alpha Panasonic Toughbook FZ-T1 Car Phone Holder, was developed with the enterprise user in mind: to protect, charge, and hold the user's device when they are driving or during mission-critical activities. Each Alpha Car Cradle is designed to withstand up to 25g in the event of an accident. Furthermore, each cradle comes with an internal passive antenna that can boost the Toughbook FZ-T1's phone signal once connected to an external antenna.

Strike specifically developed a 3 amp 12/24v for pro-installation version and 2.4 amp for DIY version of Panasonic Toughbook holder and charger to ensure that mission-critical applications never run out of power. The Toughbook FZ-T1 vehicle dock also comes with lockable features to ensure premium device security. Users can mount and use the device in public without worrying about theft.

Additionally, Strike has released Desktop Charging Dock Station for FZ-T1. The Toughbook T1 Desktop Dock Station is available in two options: Strike Panasonic Toughbook FZ-T1 Desktop Charging Dock and Strike Panasonic Toughbook FZ-T1 5-Pack Desktop Charging Dock. With the dock's modular design, one can easily attach the handheld to the set-up and charge it hassle-free.

"Strike is looking forward to designing even more innovative phone holders in the future for rugged enterprise-grade devices such as the Panasonic Toughbook FZ-T1 that benefit companies in various industries," says Chris Ryan, CEO of Strike Group. "Our Toughbook FZ-T1 cradle variants are already being shipped worldwide."
