**FOR IMMEDIATE RELEASE**

**January 2021 –Strike Releases Samsung Galaxy S21, S21 Plus, and S21 Ultra Car Phone Holders**

Brisbane, January 27, 2021 – Strike Group, the leading manufacturer of hands-free technology, is proud to introduce its latest car phone mounts for the Galaxy S21, S21+ and S21 Ultra flagship devices.

Samsung's next-generation Galaxy S21 series features 5G connectivity, sleek aesthetic design, dynamic AMOLED display, and the fastest processor for a smooth smartphone experience.

The Galaxy S21 and S21 Plus boast a triple-rear camera while the Galaxy S21 Ultra sports a quad-camera. Samsung's Galaxy S21 range delivers an upgraded experience with cutting-edge technology to complement today's users' style and needs.

"Strike aims to provide hands-free solutions that are efficient for work, vehicle, and home use. Strike's Samsung Galaxy S21 phone holders allow more streamlined productivity for this generation's workforces. They are also equipped with enterprise protection for industries with tough environments," says Chris Ryan, CEO of Strike Group.

Strike's Samsung Galaxy S21, S21+ and S21 Ultra car mounts provide a clear view of your device whether in a vehicle or office setup. With these Galaxy S21 car cradles, users can listen to their favourite music and safely and legally use navigation apps whilst on the road.

The Samsung Galaxy S21 series car phone mounts are engineered with a rugged design that can withstand 25G in the event of crash. This feature is suitable for industries with harsh work conditions, including Logistics, Manufacturing, Warehousing, Transportation, and more.

Additionally, these car phone mounts are designed with data pass through, fast charging, and signal boosting capabilities. The Samsung S21 vehicle mount effectively extends battery life whilst on long drives. Users can significantly improve their signal by connecting a reputable external aerial to its internal passive antenna. These features provide consistent connectivity that's useful for those working remotely or in low-signal areas.

These Samsung Galaxy S21, S21 Plus, and S21 Ultra car phone mounts are available in variants and fulfill users' preferences. Choose from PRO-install, DIY, wireless charging and lockable versions, and custom-designed holders compatible with Strike, LifeProof, and Otterbox rugged cases. The lockable version includes a key and lock that prevents theft when docking in public spaces.

Strike Alpha Car Cradles for the Samsung Galaxy S21, S21 Plus, and S21 Ultra are now available for pre-order. Visit Strike's website to learn more: <https://www.strike.com.au/samsung-galaxy-s21-s21-plus-s21-ultra-car-phone-holders>
