### ◉ Papillon Belle

Papillon Belle immortalises the transient beauty of real butterflies in heirloom quality treasures such as necklaces, rings and earrings by preserving sustainably sourced butterfly wings. Although only a few years old - Papillon Belle has taken the UK by storm and now, they are here in Australia. Butterflies for centuries have been a symbol of transformation, beauty and peace. Papillon Belle Glass Butterfly wing pendants are unique, modern and magnificently beautiful. The average butterfly only lives between a single day and 4 weeks, so Papillon Belle aim to immortalise these beautiful creatures in pendants and rings that can be handed down from generation to generation. The result is a unique range of jewellery made from exotic butterfly wings set in sterling silver. You can choose to set the wing as a pendant in glass or acrylic perspex or in a vintage inspired ring or charm covered by a glass dome. Some of the wings are magically iridescent and constantly change colour as they interact with light. In the pendants, both the front and back of the wing are visible and these are usually completely different. All pieces are hand made in South Africa.

## WIN!

Papillon Belle and Inflight Publishing are giving one lucky reader the chance to win a signature pendant (Morpho Zephyritis). Email [Lahnee@inflightmagazine.com.au](mailto:Lahnee@inflightmagazine.com.au) with your name and address.

### ◉ Strike Alpha Car Cradle

With the number of traffic accidents relating to mobile phone usage growing, the Australian Government is cracking down on drivers illegally texting or using mobile phones. With a ban on touching a phone with any part of the body while driving, stopped at lights or in traffic, it is vital to have a fixed mobile phone cradle able to work with your hands-free Bluetooth car kit. The world's most advanced car cradle, the Strike Alpha, is Australian designed, engineered and manufactured to enhance user experience and minimise driver distraction. It is specifically engineered to fit the user's phone perfectly, is the fastest charging car cradle in the world, and includes automated preferences allowing users to automatically control phone functions when the device is placed in the cradle.

RRP\$149
