

HI PROTEIN PERFORMANCE SNACK

Go Natural's new Hi Protein Performance Snack is designed to provide essential nutrients needed for every adventure.

Available in two flavours, Almond/Apricot and Choc Berry, the 80-gram bars contain 12.5 gram of high-quality protein from whey nuggets and wholefood sources such as grains and nuts, and are unique in having no soy products.

In addition to a protein hit, each bar contains 28 grams of carbs from wholegrains to provide a sustained energy release. The new Hi Protein Performance Snack is also a natural source of key performance nutrients, including Calcium, Magnesium, Iron, Phosphorous, Vitamin E and Vitamin B1.

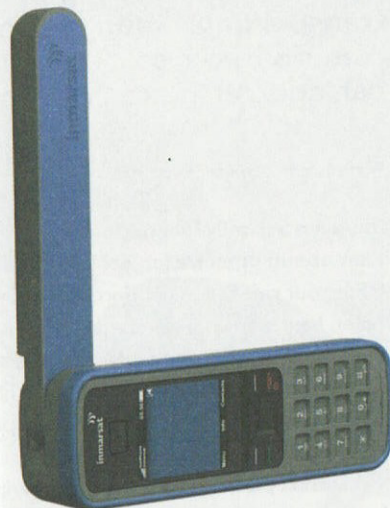

Go Natural Hi Protein Performance Snacks can be found in the protein section of Coles supermarkets nationally, 7Eleven convenience stores and online at www.gonatural.com.au

Go Natural is a 100% Australian-owned business.

ISATPHONE PRO

Here's something worth knowing about: an affordable Sat phone.

The IsatPhone Pro weighs in at 279gm and claims the longest battery life in the Sat phone market, with up to eight hours talk time and 100 hours on standby. It can text, email, send location data and make phone calls for 82 cents per minute.

The GHR race team guys used the IsatPhone Pro to stay in touch during the Safari recently, and they reckon it'll be the only comms they take to Finke next year and Dakar in 2013.

There's no-one more thorough than Glenn Hoffmann and his team, so that's a big recommendation.

STRIKE GENIUS BT MOTORCYCLE GPS

Australian-based motoring technology company Strike has the latest in motorcycle GPS with the weatherproof Strike Genius GPS BT.

The new Genius features inbuilt Bluetooth, 3D mapping technology and intelligent software that's responsive and calibrated for motorcyclists to allow for easy navigation.

Purpose-built for the bike rider, the Strike Genius GPS BT includes a raised top and sides to help protect the screen from glare and a glove-friendly touch-screen.

The 3D mapping technology shows hills, landmarks, buildings and elevated roads, while providing turn-by-turn directions with spoken street names. You can also record your ride history whenever the device is on and download trip details to Google Earth, allowing users to view trip details like speed and location.

The Genius BT is compatible with the Scala Rider Q2 Pro and the Scala Rider G4 Bluetooth headsets, and the motorcycle mount that comes included is easy to install and allows you to securely clip the Strike Genius GPS unit in and out as needed.

Navigation software is supplied by Navteq Maps and also includes 4WD tracks by Hema, offering off-road guidance along known dirt routes, with over 8000 relevant POIs and locations for outdoor activities.

Purchasing the Strike Genius BT at the moment means unlimited free map updates for an entire year.
