

FEATURES AND BENEFITS

- Creates an ultra-hydrophobic layer of protection for your car's exterior surface
- Helps protect paint from environmental contaminants and road debris
- Aids in maintaining the performance and appearance of graphene or ceramic coatings
- Works as a drying agent after a car wash
- Extreme glossy, slick appearance
- Coconut scent

DIRECTIONS:

Step one:
Spray Evenly onto vehicle surface.

Step two:
Using a clean microfiber cloth, wipe the surface in a cross-hatch (side-to-side, top-to-bottom) pattern to evenly distribute the product.

Step three:
Gently level, wipe away any excess product with a clean, dry microfiber, leaving behind a clean, streak-free, hydrophobic shine.
