

FEATURES AND BENEFITS

- Safely cleans dirt, grease, and grime from any surface Preps glass for product application

PRODUCT APPLICATION

- Dilute concentrate as per contaminate condition. Wipe or spray onto the surface to be cleaned (do not over-saturate). Work with a brush if necessary. Wipe away with surface-appropriate microfiber/towel.

DILUTION RATIOS:

- When using to clean interior panels of a vehicle, or lightly soiled surfaces, it should be diluted 10:1 (10 parts water to 1 part cleaner)
- When using on heavily soiled interior (stains on carpet, door jambs, etc.), it should be diluted 4:1 (4 parts water to 1 part cleaner)
- When using on engine compartments and extreme situations, it can be diluted 2:1 or straight concentrate
