

A modern outdoor living space with a dining table, a sofa, and a view of a marina. The scene is bright and airy, with a clear blue sky and lush greenery. The furniture is contemporary and comfortable, set on a light-colored floor. The view through the large opening shows a marina with several sailboats and a white fence in the foreground.

WHY PLATINUM MARINE?

To counteract the hurdles of installing an outdoor heater near the coast where standard stainless steel can rust and deteriorate, Bromic engineered the Platinum Electric Marine heater series.

AISI 316 MARINE-GRADE STAINLESS STEEL

Built to withstand corrosive environments with high grade materials and a fully enclosed heater body to protect internal elements

INDUSTRY-LEADING 5-YEAR WARRANTY

Offering peace of mind that the heater is built to last.

VERSATILE MOUNTING OPTIONS

Wall, ceiling and recessed mounting options.

WHAT ARE CORROSIVE ELEMENTS?

The high level of relative humidity in coastal areas can add to the deterioration of metals, accelerating the electrochemical reactions that cause rusting and other forms of corrosion. Some of the major threats include those made primarily of sodium chloride such as salt spray from breaking waves and onshore winds, or other atmospheric pollutants like sulfur dioxide within fog, mist and dew.

CONVENIENT CONTROL OPTIONS

For ease of use.
