

FLEX 18PN

PENINSULA FIREPLACE

Room Divider Application
Peninsula fireplaces feature three open sides - view the flame from the front, back and open side.

Decorative Side Box
When a decorative box is added, the panel between the standard fire and the decorative box is glass.

Global Compliance
These models comply with existing standards in the USA, Europe, UK and Australia. UL Listed, EN 16647 BSI Certified, ACCC Safety Mandate compliant.

Clean Burning
Fueled by clean burning e-NRG bioethanol

Toughened Safety Screen
Your Flex Fireplace features toughened glass to stabilise the flame in windy conditions and provide an additional layer of safety and comfort. The Integrated windscreen sits flush behind the frame.

Luxurious Finish
Available in a timeless black finish, Flex Fireplaces come with stainless steel burners and black glass charcoal.

Built to Last a Lifetime
Zinc sealed steel construction powder coated with super hi-temp black paint prevents rusting so all fireplaces can be used both indoors or outdoors.

Decorative Steel Log Sets (sold separately)
EcoSmart Fire offers non-combustible logs as an optional, eye-catching accessory for models with the decorative side box. Made from stainless steel with a patina finish, they are available in different finishes.
**Decorative logs must NOT be placed directly over an open flame. They are designed to sit near heat but not over flames.*

Zero Clearance
Self-contained, zero clearance construction allows your Flex fireplace to be framed into wood or metal studs, providing installation freedom and flexibility for builders, architects, interior designers, landscapers and homeowners.

Included Accessories

- Jerry Can
- Lighting Rod + Lighter
- Operations Manual
- Baffles
- Black Glass Charcoal

Optional Accessory

- Decorative Steel Logs
