instructions before use.

Metropolitan – Anywhere Fireplace™

The high style and distinctive contemporary design of the **Anywhere Fireplace™** allows the ambiance of a fire to be enjoyed in any room, garden or patio. It is ventless, requiring no chimney or gas line because it uses clean burning bio-ethanol liquid fuel that is smokeless, odorless, and leaves no soot or ash. You can place the **Anywhere Fireplace™** in your house, condo, apartment, terrace, garden, office or restaurant. It is sure to match most any decor and adds a rich warm atmosphere to your bedroom, living room, den, dining room...

This unique, impressive, eco-friendly modern answer to the fireplace creates a bright yellow, orange and red flame, spreading cheerful glow across the room. It is non-toxic, non-polluting, has no messy clean up and is virtually free of maintenance. One quart of fuel can burn for up to 5 hours.

For any questions related to parts or installation visit us on the web at www.anywherfireplace.com or email us at info@anywherfireplace.com

IMPORTANT SAFETY MEASURES - READ ALL SAFETY MEASURES BEFORE USE

- This fireplace is intended to be placed on a floor or sturdy surface
- Be sure to keep any flammable materials such as drapes/curtains and any decorations at least 4 ft away from fireplace
- Do not place any items on top of or inside fireplace
- Do not touch the fireplace or glass while lit or for 15 minutes after it is extinguished as it may still be hot
- **USE ONLY APPROVED BIO-ETHANOL LIQUID FUEL FOR FIREPLACES**
- It is extremely dangerous and forbidden to use bio-ethanol car fuel or any other unapproved fuel
- Carefully fill your fireplace making sure no fuel spills. A funnel is recommended to fill the fireplace
- Be sure to not spill any fuel outside of the burner. If you do spill, make sure to wipe up all spillage before igniting the fire
- Fill the burner $\frac{3}{4}$ full before lighting. Make sure the lids are fully open for the first few minutes to get maximum oxygen to the fire
- Never add fuel to the burner while fire is burning or unit is still hot. Allow at least 15 minutes for fuel reservoir to cool down before refueling
- NEVER ingest bio-ethanol fuel and avoid contact with eyes and skin
- Only use a long match or long lighter to ignite fire
- Be sure to have a fire extinguishing device in the proximity of the fireplace in case of emergencies

- Never leave a lit fireplace unattended
- Be sure to keep children and pets away from the fireplace while lit and while still hot after extinguishing
- Do not smoke when filling the burner with fuel
- Store your fuel containers away from any heat source
- Be sure to store and keep your fuel away and out of reach of children and pets
- To adjust flame height, use handle to open/close burner lid
- To extinguish flame, use burner handle to close burner completely
- It is forbidden to modify this fireplace in any way and it will void any warranties

ADDITIONAL WARNINGS REGARDING FUEL USE

- USE ONLY APPROVED BIO-ETHANOL LIQUID FUEL FOR FIREPLACES
- **Bio-Ethanol Liquid Fuel** for fireplaces burns clean without emitting any toxins into the air. Only harmless water vapor
- and CO₂ are produced as byproducts
- **Recommended Bio-Ethanol Liquid Fuel** may be purchased at www.anywherefireplace.com
- NEVER ATTEMPT to use any other kind of fuel than those specially made for ethanol fireplaces

INSTALLATION

- There should be no installation necessary.
- When you remove your fireplace from the package, the damper lids and handle are packed on the bottom of the foam carton.
- Put the lids on the fuel reservoir so the buttons on the bottom of them catch the grooves on the reservoir when pulled open
- Place fireplace on a steady and safe surface at least 4' away from any flammable materials
- Carefully fill with fuel, light with long match or lighter and enjoy
