

Patio Comfort

Infrared Outdoor Patio Heaters

Model NPC05-Natural Gas Only

Patio Comfort outdoor infrared patio heaters are designed and crafted to bring warmth, comfort, safety, convenience, and enjoyment to your “alfresco” dining and entertaining.

The clean, efficient, and draft free infrared radiant heat feels just like the sun warming people and objects, while not wasting valuable energy trying to heat the air.

Our natural gas powered outdoor radiant heaters are designed to extend the use of your home’s patio, deck, pool areas, or outdoor dining areas well into the cooler months. No longer does the fun have to stop when the temperature drops!

Using clean-burning, efficient, and cost-effective natural gas you will never again have to worry about fueling, storing, changing propane cylinders or running out of fuel in the middle of your outdoor event.

The average cost of operation at 67 cents/therm is less than 50 cents per hour! Your cost of operation may vary based on your cost/therm.

Only *Patio Comfort* heaters come equipped with a 12 foot steel-lined CSA approved hose set and hook up kit. The hose set includes two all brass CSA approved “quick couplers” and CSA approved all brass shut off valve for easy and safe heater assembly, hook-up, movement, and storage.

Our residential natural gas patio heaters are made of the finest materials; stainless steel, brass, aluminum and powder coated steel, and are designed to provide many years of safe, convenient, and portable heat.

Product Features and Benefits:

- Provides clean draft free circle of radiant heat

Please Note: *Actual heating area and coverage will depend on wind conditions, protection of area, and other variables. Generally a 10-15 foot circle of warmth will be created by our heaters in ideal conditions.*

- Convenient piezoelectric "matchless" ignition system
- Solid brass gas valve with 100% safety shut off control
- Hook up kit includes natural gas pressure regulator
- All 403 series stainless steel burner and emitter grid
- Gas train and hose set are pre-assembled
- All fasteners are 304 series stainless steel
- Reflector is one piece anodized aluminum
- All steel components are polyurethane powder coated

Model NPC05 (Stainless Steel)
Also available in Antique Bronze
