GAS GRILLING & OUTDOOR LIVING

WILDFIRE GRILLS: ENGINEERED TO PERFORM

Innovatively designed to grill to perfection every time
— here's how we make it happen:

- **Thick quarter inch laser cut 304 STAINLESS STEEL COOKING GRATES** allow food to cook evenly on a greater contact surface without getting dry.
- The **INFRARED REAR BURNER** heats up to 10,000 BTUs, perfect for cooking exceptional rotisserie.
- **No electricity necessary to light a Wildfire grill.** Once the **PIEZO** ignition system ignites to produce our flame thrower valve, ensuring your grill lights every time.
- **Blue lenses and halogen INTERIOR LIGHTS** illuminate the inside of the grill with a soft, white light that matches the knob bezels on the outside.
- **Cook a steak on one side and a tender piece of fish on the other** with 304 stainless steel **HEAT DIVIDERS** that are designed to maintain designated burner zones.
- **CARTS** are available for the Ranch Pro Griddle and the 30", 36", and 42" Ranch Pro Gas Grills. Both styles are equipped with collapsible and removable side shelves, plenty of room for storage, inside the carts along with a slide-out propane tank holder.

BUILT-IN SPECIFICATIONS

Important Note to Consumer: This flysheet is not intended to replace your Owners' Manual which contains specific safety requirements and consumer guidelines. Please refer to your Owners' Manual prior to operating your built-in bbq.

WARNING: All gas grills listed are intended for outdoor use only and are not intended to be installed in or on recreational vehicles or boats.

Clearance to Combustible Construction: When choosing a location for your gas grill, you should not have it located under any combustible construction. The side, bottom, and back of the grill should not be any closer than 24" to combustible construction.

Cutout Dimensions: Build your barbecue island to these specifications to ensure proper fit of the product being used. Overall

Total BTU Ratings: These numbers show the total volume of gas used by the product while operating at full capacity. Dimensions above are accurate but as tape measures and grill bodies can vary by 1/8", we recommend measuring and confirming your purchased unit to confirm your cut out dimensions.***

Dimensions of the product once it is resting/installed in a barbecue island.
