SECTION 4: FIRST AID MEASURES

Description of First Aid Measures:

General: If irritation or other symptoms occur or persist from any route of exposure see a physician/get medical attention.

Eye Contact: May cause eye irritation and/or conjunctivitis. Prolonged exposure may result in corneal burns, and/or other eye problems. If irritation occurs, move away from exposed area and flush eyes with water for 15 minutes. If irritation continues, seek medical attention.

Skin Contact: May cause mild skin irritation. Harmful if absorbed through skin. Remove contaminated clothing. Flush exposed area with water and wash with soap and water. If irritation occurs, seek medical attention.

Inhalation: Vapors may cause irritation to nose, throat and respiratory tract. High vapor concentrations may cause central nervous system depression which can lead to dizziness, weakness, headache and unconsciousness. Move individual to fresh air. If breathing is difficult, administer oxygen and seek medical attention.

Ingestion: Harmful or fatal if swallowed. Swallowing may cause abdominal irritation, gastrointestinal irritation, nausea, vomiting and diarrhea. Do not induce vomiting. If vomiting does occur, seek medical attention and contact poison control.

Protection of First Aid Responders: Wear proper personal protective clothing and equipment.

Most important symptoms and effects, both acute and delayed: Irritation. Pre-existing skin problems may be aggravated by prolonged or repeated exposure.

Indication of any immediate medical attention and special treatment needed, if necessary:
Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Foam, CO₂, Dry Chemical

Special Firefighting Procedures: Normal fire fighting procedure may be used. Water may be used to cool containers to prevent pressure build up.

Unusual Fire and Explosion Hazards: Material will not ignite or support combustion unless water has evaporated. Dried solids may burn.

Flash Point: 75°C (167°F)

LEL: No Data

UEL: No Data

SECTION 6: ACCIDENTAL RELEASE MEASURES

Steps Taken: Dike areas with sand and absorb with an absorbent material.

Special Precautions: Protect from freezing, keep containers closed and stored in a covered area. Do not smoke or eat in work area. Keep away from children.

SECTION 7: HANDLING AND STORAGE

Precautions for Safe Handling: Good industrial hygiene requires that exposure be maintained below the TLV. This is preferably achieved through using the product under well-ventilated conditions. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Avoid eye contact. Avoid repeated or prolonged skin contact. Avoid inhalation of fume or vapor. Avoid drinking, tasting, swallowing or ingesting this product. Wash contaminated clothing before reuse.

Conditions for Safe Storage, Including and Compatibilities: Keep container closed and from freezing when not in use. Store in original container away from incompatible materials.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Silica, amorphous 7631-86-9	Not Established	Not Established	NIOSH: 6 mg/m3 TWA
