Woodsy Essential Oils. Forest to Formulation.

The Power of Bark and Leaf

Take a walk through the forest with these natural, warm woody scents, some even have a slight sweet aroma to them. These oils bring you back to nature, serving to ground and settle you and leave you feeling rejuvenated and restored. For aromatherapy, they provide bass notes to build beautiful blends on. These oils' deep, warm and lingering scent can be masculine, yet sensual, and create an alluring, quality and an intriguing atmosphere. Sometimes considered aphrodisiacs, they can also promote feelings of comfort, security, and well-being.

SAFETY FIRST

Essentials oils can be 50-100x more concentrated than natural levels in the plant. Take caution and always mind best practices when using oils. If applying topically, they should be diluted into a carrier oil and ONLY IF they are recommended for ingestion or inhalation, be sure to follow recommended dosage.

EXTERNAL RECOMMENDATIONS

Essential oil:

Several drops rubbed into the skin. (This may be diluted at 30 ml essential oil to 500 ml of a suitable carrier such as vegetable oil.)

Ointment:

Semi-solid preparation containing 5-20% essential oil (in carrier oils, creams, or lotions) for local application. (Salve)

Tincture:

Aqueous-alcoholic preparation containing 5-10% essential oil for local application.

Inhalant:

Add a few (2-5) drops of essential oil to hot water or to a vaporizer; deeply inhale the steam vapor.

Many of our conventional oils and products are also available in Organic form. Those that are Organic are certified by the USDA and Oregon Tilth. Please contact us for more information on our Organic products.

We always aim to source high quality ingredients and have a large range of respected suppliers from around the world. This list is a guide only, correct at the time of publication. If you are after an oil not on our list, please contact us and we can see if we can source it for you. As products are plant sourced and natural, availability is reliant on many factors outside our control. Despite our best efforts, we cannot guarantee the availability of any of our products at any given time. The use of the products listed in this document is to be considered as a guide only and further advice should be sought from your formulating chemist and/or health practitioner.
