2. Insert the plug into the socket.
3. Turn on the power supply if it is off
4. Turn on the device switch.

## Your DURAVACU is ready for use

### ILLUMINATED NOZZLES:

The Duravin + system is equipped with illuminated nozzles.

By pressing the "+" and "-" buttons you can change the intensity of the chosen color.

By pressing the colored capacitive button it is possible to interchange 7 different colors.

Regardless of the selected color, during the reclosing and pressurization process, the nozzle turns red and then green once the operation is complete.

Once the bottle is removed, the nozzles will return to the set color.

### Final Use Instructions:

- The top of the bottles must always be clean and free of wine residues.
- The caps must be cleaned regularly. Use a mild cleanser and rinse them thoroughly. You could soak them overnight.
- Monitor the performance of all caps. If a cap cannot hold the vacuum, set it aside immediately and replace it with a new one.
- Make sure glasses are thoroughly cleaned and dried before use.

The company relieves itself of any responsibility for a use other than that suggested for both the machine and the accessories.
