

PRO Cookware

Official Purveyor of Cookware at Platform by James Beard Foundation

TuxSTEEL 

Made from thick gauge extra durable stainless steel, TuxSTEEL is the ideal vessel for acidic ingredients such as tomatoes, lemon juice, or vinegar because it doesn't react with food. Its hollow handle reduces heat transfer and is firmly welded on for ease of cleaning. The induction-ready, aluminum-clad bottom spreads heat evenly, resists warping, and is ready for any front or back of house application.

Lifetime edge chip limited warranty
