

Mushroom Fruiting & Incubation 3-Tier Walden White LED Grow Tent Kit

Maximum Strength 3-Tier Shelving

3 fixed shelves provide up to 24 ft² of grow space and support up to 100 lbs each. Shelves are spaced 18" apart to easily accommodate plants, mushrooms and lighting.

EcoWhite PEVA – Triple Layered

The 100% toxin-free material creates a safe, stylish and easy to clean growing area. The tent interior is 10% more reflective than even the most reflective mylar tents.

Vapor Tabs for High Humidity

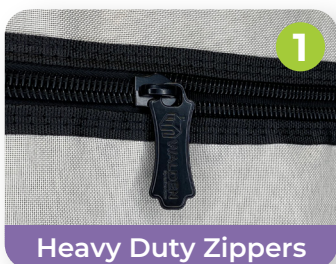

Innovative Vapor Tabs direct humidity buildup on the tent interior straight into the spill tray, preventing leaking through the tent floor and creating a contaminated space.

Infinity View Front Windows

Extra-large front viewing windows let growers check on mushrooms without disturbing humidity or temperature. Window covers roll back and secure with velcro straps.

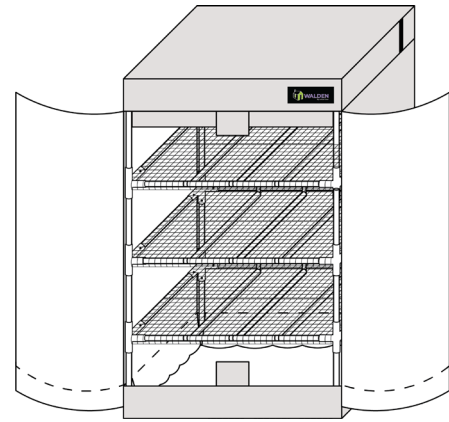

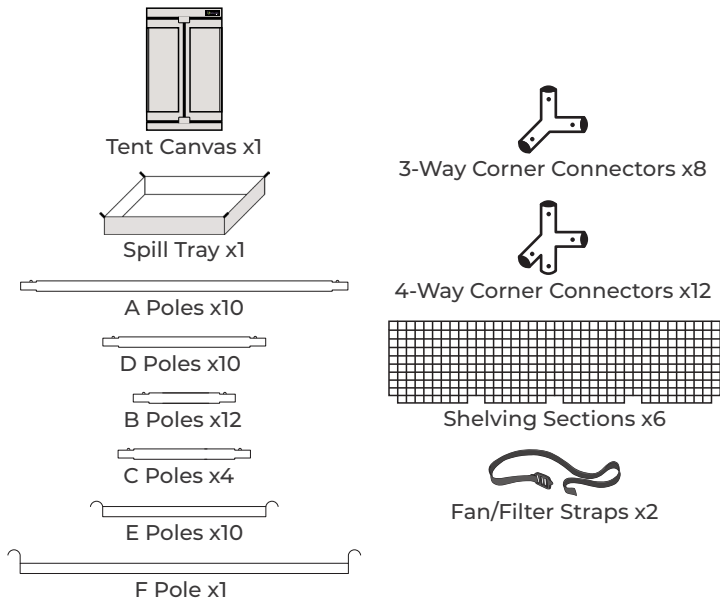

3-Tier Walden Grow Tent Features

Mushroom Fruiting & Incubation 3-Tier Walden White LED Grow Tent Kit

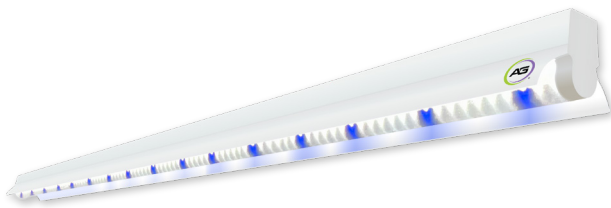

3-Tier Walden Grow Tent Contents

Installation is quick, simple and requires no tools. Tent may be cleaned using soap and water or other standard hydroponic sanitizers.

Mushroom Fruiting & Incubation LED Grow Light Kit Contents

Integrated Strip T5 4FT LED Grow Light

- Kit includes 2 fixtures with 120V power/daisy chain cables
- Blue Sun Spectrum
- Built-in on-off switch
- Up to 20 fixtures can be daisy chained together on a single circuit
- 40,000-hour lifetime and a 3-year warranty

1/8" Hydroponic Hangers

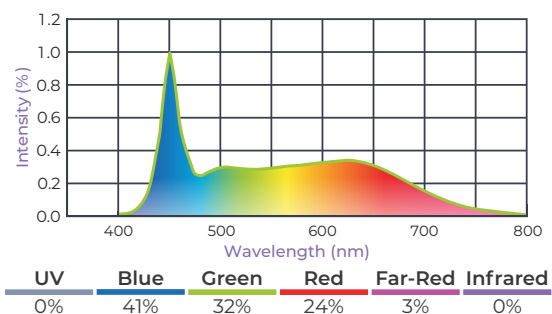

- Kit includes 4 hangers
- Heavy duty 1/8" braided rope with carabiner and ratchet
- Fully adjustable and auto locking
- Supports up to 150 lbs/pair
- Designed to hang lighting, fan, filter, etc.

What Can I Grow?

The Mushroom Fruiting & Incubation 3-Tier Walden Grow Tent Kit is the first easy to sanitize grow tent system that uses a research-backed mushroom grow lighting spectrum to improve growing conditions for oyster, shiitake, psilocybe (magic mushrooms), cremini, enoki, maitake, portobello and white button mushrooms from start to finish.

Blue Sun Spectrum

The coolest spectrum around features 450 nm (blue) wavelengths and full-spectrum 6500K white light. Even at 11,500K CCT, dedicated far-red wavelengths help with light penetration through foliage and water. This spectrum accentuates colors and promotes healthy development of mushrooms, clones, coral and increases coloration in red lettuce varieties.

Mushroom Fruiting & Incubation 3-Tier Walden White LED Grow Tent Kit

SPECIFICATIONS		MUSHROOM FRUITING & INCUBATION 3-TIER WALDEN WHITE LED GROW TENT KIT
Model number	AG/24TENT/W/3S/PK
