

T5 HO 2.0 4FT 4 LAMP LED GROW LIGHT

25W T5 HO Ballast Bypass
4FT LED Lamp

Lightweight & Low Profile

New all-PC body provides growers with a lightweight (5.6 lbs), low-profile (1.7") and high-performance LED fixture with 10% higher PPFD output than previous generation.

Red Bloom Pro Spectrum

True full-spectrum light designed to increase plant mass, speed up growth and promote healthy root development, budding and fruiting in purely indoor environments.

Bypass the Hassle – Line Voltage Lamps

Lamps run directly off line voltage 120-277V. No ballasts means no buzzing, flickering, compatibility or longevity issues, giving your plants pure, uninterrupted lighting.

Shatterproof Design

Each lamp's transparent PC body protects against water damage and shattering without sacrificing photon output.

Ready to Grow

Comes complete with 4 LED tubes, 2 hanging hooks and 120V power cord which can also function as a daisy chain cable. Waterproof dual on-off switches let growers run 2 or 4 lamps.

Extra-Long Lifetime & Guarantee

Active Grow 25W T5 HO Ballast Bypass LED Lamps feature an exceptional 30,000-hour lifetime. Each fixture has a 3-year warranty.

Blue 400-500 nm

Improves overall plant health and quality including taste, aroma, color and nutrition. Helps promote plant compactness and root development.

Green 500-600 nm

Increases overall plant photosynthetic efficiency and penetrates the canopy to encourage growth of lower leaves. Makes detecting issues like pests and disease on plants easier to see.

Red 600-700 nm

Promotes plant photosynthesis and increased biomass. Essential for leaf expansion and stem growth. Helps regulate plant flowering, photoperiod and germination.

FR/IR 700-800 nm

Promotes expansion and stretching of leaves and stems. Penetrates the canopy to encourage growth of lower leaves. When used with 660-680 nm wavelengths, plant photosynthesis rates increase via the Emerson effect.
