

1. Logos & Digital Files: We will need copies of any logos and artwork elements that will be included. *******These must be in vector format, most common vector file types are .eps .ai .pdf. **The correct file type does not guarantee that it is true vector artwork.* If specific artwork cannot be supplied we may have to re-create the artwork in a vector format, which are quoted independently. We can also incorporate images and photos elements into your wrap. Please, include all images when submitting files. **Photos and "raster" design elements must be "HI-RES" quality.*

2. Colors: Colors and consistency are a big part of any branding and marketing. It's important to us to achieve the look you are going for . The most accurate way to achieve this is by using organized color coding systems. We reference the Pantone Matching System (PMS), RBG System or CMYK System... *(only 1 of 3 columns for each color is sufficient)*

ex. 	Pantone: PMS 485 C	RBG: R: 218 / B: 41 / G:28	CMYK: C: 0 / M: 95 / Y:100 / K: 0
Color 1:		/ /	/ / /
Color 2:		/ /	/ / /
Color 3:		/ /	/ / /
Color 4:		/ /	/ / /

**Colors on screen for proofing and final output color may vary with printing process, materials being printed... etc.*

3. Fonts & Added Information/Inspiration: **Does Not Apply:**

Not adding text

- Sample / SAMPLE: Rockwell**
- Sample / SAMPLE: AachenBT**
- Sample / SAMPLE: COOPERPLATE BOLD (Caps Only)
- Sample / SAMPLE: BANGO PRO
- Sample / SAMPLE: Arial**
- Sample / SAMPLE: LHF Signkit Script
- Sample / SAMPLE: LHF Road Rage (caps only)

**These are creative projects, so there are many options with little limitation when it comes to design.*

Find a font style!
search...
urbanfonts.com
dafont.com
...and others

**additional notes about design, text and (or) images to be added.*

We will submit our own Completed Design: *Vector and hi-res Raster files accepted.*
