COOL SEASON GRASS APPLICATION SCHEDULE FOR YEAR

ferti•lome 5-STEP LAWN CARE PROGRAM

	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEPT	OCT	NOV	DEC
STEP 1	Red	Red	Red	Red								
STEP 2				Purple	Purple							
STEP 3			Blue	Blue	Blue		OR		Blue	Blue		
STEP 4									Green	Green		
STEP 5										Brown	Brown	Brown

For Cool Season grasses such as Turf-Type Fescue, Kentucky Bluegrass, and Ryegrass.

STEP 1

ferti•lome **For All Seasons II Lawn Food Plus Crabgrass & Weed Preventer (16-0-8)** Apply in January through mid April. Prevents grassy-type weeds (crabgrass and more) all season long (until fall) while it feeds your lawn.

STEP 2

ferti•lome **Pro-Green Lawn Tonic (16-0-0)** Apply during the early growing season. Promotes a healthy deep green lawn and helps acidify the soil. Substitute **Green Maker (18-0-6)** during the growing season to correct alkalinity while fertilizing. (Neither contain weed control.)

STEP 3

Natural Guard **HuMic** (natural soil amendment) Apply in spring or fall. Not a fertilizer, but this product REALLY greens up your lawn! Unlocks nutrients to improve soil structure and fertility. Encourages root development. Improves turf resistance to stress.

STEP 4

ferti•lome **Winterizer (25-0-6)** Apply in September through October to encourage maximum growth during the peak growing season. For new lawns, substitute one Winterizer application with **New Lawn Starter Fertilizer (9-13-7)**.

STEP 5

ferti•lome **Winterizer (25-0-6)** Apply in October through December, about 30 days after your first Winterizer. Increases winter hardiness, keeps grass greener longer and promotes earlier spring green up. When weed control is needed, substitute Winterizer with **Weed-Out Plus Lawn Fertilizer (25-0-4)** starting in mid October. Controls weeds such as henbit, dandelion, clover, and chickweed while feeding your lawn. For best results water in after 24 hours.

OPTIONAL

Apply Hi-Yield **Grub Free Zone III** as a preventative in late spring to early summer before grubs damage your lawn. Water in well for best results. Apply **F-Stop Fungicide Granules** during the growing season to prevent or control disease such as brown patch.

PLEASE READ AND FOLLOW LABEL DIRECTIONS ON ALL PRODUCTS.
