

## 24v BullX Mini Lure Machine (Remote Control Model)

### TOP TIPS

- NOTE: THE AGM BATTERY IN YOUR MACHINE SHOULD BE FULLY CHARGED AFTER USE TO GET MAXIMUM LIFE.
- IT IS EXTREMELY IMPORTANT THAT YOU **DO NOT** OPERATE THE MACHINE WITH OUT A LURE ATTACHED. THE MOTOR IS DESIGNED TO PULL AND NOT FREE WHEEL... YOU RISK DAMAGING YOUR MOTOR IF YOU OPERATE YOUR MACHINE HIGH SPEED WITH OUT ANY LOAD!
- THE REMOTE CONTROL REQUIRES 1 x 9v BATTERY (not included)
- WHEN YOU HAVE PULLED YOUR CHOSEN LURE OUT INTO THE FIELD, RETURN TO THE MACHINE AND CHECK THE LINE IS TAUGHT. IF THE LINE IS SLACK AROUND THE WHEEL YOU WILL RISK THE LINE JUMPING BEHIND THE WHEEL AND YOU WILL GET TANGLED.
- TO OPERATE YOUR MACHINE ON... PRESS THE POWER BUTTON ON TOP OFF YOUR MACHINE AND SET YOUR SPEED DIAL TO YOUR DESIRED SPEED, TURN YOUR REMOTE CONTROL ON AND THEN PRESS THE REMOTE CONTROL BUTTON.
- DON'T LET YOUR DOGS RUN OFF WITH THE LURE ATTACHED TO THE LINE, YOU WILL GET TANGLED!
- DO NOT OPERATE THE MACHINE IF YOUR BIRD OF PREY OR DOG HAS CAUGHT THE LURE.
- MUZZLE YOUR DOGS IF YOU CAN...
- ALWAYS USE YOUR MACHINE LEGS IN THE BASE OF YOUR MACHINE TO SECURE YOUR MACHINE IN THE FIELD BY CAREFULLY PUSHING INTO THE GROUND.
- USE IN A SHORT GRASS FIELD.
- MAXIMUM LURE WEIGHT IS 1.5lb.
- IF YOU HAVE PULLEY's, DO NOT HAMMER OR STAMP THEM INTO THE GROUND. SIMPLY PUSH IN BY HAND. IF THE GROUND IS DRY AND HARD, MAKE A PILOT HOLE FIRST.
- THE REMOTE HAS AN ON/OFF SWITCH ON THE RIGHT HAND SIDE...
- PLEASE DO NOT LET YOUR LURE HIT THE MACHINE, STOP PRESSING THE REMOTE WHEN THE LURE IS 30 METERS AWAY FROM THE MACHINE.

Enjoy BullxProTraining!

If you need further help, please contact us for more information on how to use our products.

- We accept no responsibility for any damage or injury caused by the misuse of these machines.
