

BullX Standard Lure Machine (Continuous Loop Model)

TOP TIPS

- PLEASE WATCH OUR INSTRUCTIONAL VIDEO ON YOUTUBE
<https://youtu.be/QHzBMyAQsXw>
- NOTE: THE AGM BATTERY IN YOUR MACHINE SHOULD BE FULLY CHARGED AFTER USE TO GET MAXIMUM LIFE.
- THE REMOTE CONTROL REQUIRES 1 x 9v BATTERY (NOT included)
 - YOU MUST USE THE M8 SPLIT WASHER AND M8 WASHER IN THE ORDER I HAVE FIT YOUR WHEEL TO YOUR MACHINE. FAILURE TO USE THESE WASHERS WILL RESULT IN YOUR CHOSEN WHEEL BECOMING LOOSE WHEN SPINNING.
- IT IS VERY IMPORTANT TO LET THE MACHINE COOL FOR 5 MINUTES AFTER 2,000 METERS OF LOOPED LINE HAS BEEN PULLED IN.
- DO NOT HAMMER OR STAMP ON THE PULLEY WHEELS, YOU WILL DAMAGE THEM! IF THE GROUND IS HARD, MAKE A PILOT HOLE FIRST SO THAT IT MAKES IT EASIER TO PUSH THEM IN TO THE FIELD.
- HAVE A FEW PRACTICE RUNS BEFORE YOU START TRAINING.
- CHOOSE A SHORT GRASS FIELD TO TRAIN IN.
- THE MACHINE LEGS SCREW INTO THE BASE OF THE MACHINE.
- THE ANTENNA SCREWS ONTO THE BRASS THREAD LOCATED ON THE TOP CORNER OF THE MACHINE.
- USE THE MOTOR SPANNERS PROVIDED TO CHANGE YOUR WHEELS.
- DON'T FORGET TO TURN YOUR REMOTE ON 😊
THERE IS AN ON/OFF SWITCH ON THE RIGHT HAND SIDE.
- WHEN USING LURE CONTINUOUSLY, ATTACH THE LINE TO THE TIP OF THE LURE.
- MUZZLE YOUR DOGS!
- DON'T LET YOUR DOGS CATCH THE LURE.

ENJOY BullxProTraining!

If you need further help, please contact us for more information on how to use our products.
