

For your safety and to get the best out of your new gloves, please take a moment to read through these care and use instructions

Made with bamboo fiber and coated in non-slip latex foam, these gloves offer a snug fit and come with an extended cuff for added comfort and protection.

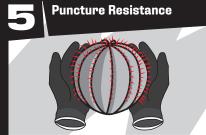

Machine wash at 68°F/20°C or gently wipe with a damp cloth. Avoid using harsh chemicals or solvents to preserve the latex coating.

Made with UV-resistant material. When not in use, store them in a cool, dry environment, away from direct sunlight and heat, to preserve the latex coating.

Before using the gloves, ensure you don't have a latex allergy. Allergic reactions can lead to skin irritation, itching, or more severe reactions.

The gloves offer a level 1 of puncture resistance. Yet, sharp objects can pierce them. Be cautious when handling thorny plants, sharp tools, or any puncture-prone items.

Gloves that are overly tight or too loose can cause discomfort and compromise your dexterity, increasing the risk of injury. Please contact **wecare@nocry.com** to get your gloves replaced for free.

not chemical-p

For your safety, always follow proper procedures and use additional protective equipment as needed. **Do NOT use these gloves when handling machinery or power tools**; they can get entangled in the equipment, leading to injury.
