

TIP: Find the model number of your goggles on the packaging.

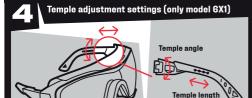

Slip the goggles over your head and adjust the headband until they feel snug and comfortable against your skin.

water-moistened soft micro-fiber cloth. Do not use chemicals.

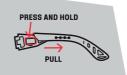

For models 6X3 and 620U first measure that your glasses fit correctly inside, so they won't touch and rub against one another.

The adjustment settings help the goggles fit your face securely and comfortably. Adjusting the temple angle can also control the airflow.

**IF IN DOUBT** 

Make sure that the L (left) and R (right) markings on the temple attachment correspond with the left and right side of the goggles.

Press and hold down on the area shown on the image and pull simultaneously to release. Slide the clip back on the frame and click in place to attach.

When not in use, store the goggles in a protective case

## Carefully assess your working environment

Make sure that the goggles are the most suitable means of protection from potential threats you are likely to be exposed to in your working environment.
