WILDBRICKS PLAYSAFE

COMFORT, PERFORMANCE
& SAFETY AT WORK & AT HOME

**DANGER KNOWS
NO BOUNDARIES,
SO NEITHER
CAN SAFETY!**

For decades, we at Reflective Apparel have focused on America's workforce, developing ANSI safety workwear that is made to fit and to last. Being visible on the jobsite is critical to personal safety where one misstep can lead to an injury or worse. But safety doesn't stop at the fence line. We all know friends or family who have experienced a near miss, or even an injury, as a pedestrian. Danger knows no boundaries, so neither can safety!

With the introduction of WildSpark™, we are bringing the same safety-first thinking to performance comfort apparel. Designed with safety and style in mind, every WildSpark™ garment has reflective properties that are discrete in the daylight but provide high-vis reflectivity in low-light situations, like a roadside.

“People should be visible at work, as well as when they walk to the bus stop, ride their bike or walk their dog after work. I've seen employers encourage their employees to use hearing, vision and respiratory protection whenever and wherever it's needed, not just at work. Safety awareness shouldn't stop at the jobsite.”

- Scott Corrao, President

COMPLETE PERFORMANCE

WILDSPARK™ IS THE FIRST PERFORMANCE APPAREL TO COVER ALL THE BASES FROM UV PROTECTION TO ANTI-MICROBIAL TO VISIBILITY.

With breathable, moisture-wicking fabric, WildSpark™ wears like other premium performance apparel, keeping the wearer dry and comfortable all day.

But unlike on other performance apparel, the reflective patterns on WildSpark™ apparel appear brightly to any observer projecting a light source, such as a driver, turning the wearer into a shining beacon in the road. Pedestrians are at the highest risk at night when many are out running, walking or biking. Being highly visible holds the potential to reduce injuries or save lives. When choosing a performance shirt, it makes sense to choose one that performs in all circumstances.

COMFORTABLE TRANSITIONAL APPAREL

Our line of performance comfort shirts can be customized as a workforce uniform that easily transitions from work to play, offering workers a wildly comfortable work shirt that they'll want to leave on when they get home. WildSpark™ looks and feels like other leading performance wear until exposed to a light source in a low-light environment. Now, workers can leave their jobsite and feel comfortable in their work shirt as they go on with their day and night.
