CERTIFIED APPLICATOR TRAINING

Our APOC Certified Applicator Training provides a classroom overview of the APOC product line followed by a tutorial of roof restoration, a review of our full system specifications and related warranty procedures. Attendees will then gain hands-on experience including proper preparation techniques, a variety of detail applications, proper and time saving coatings applications across all acceptable substrates. This course is concluded with a brief knowledge evaluation and provides installers with APOC Certification upon completion of the course.

*This course and an application are required for installers of material and labor warranted APOC systems.
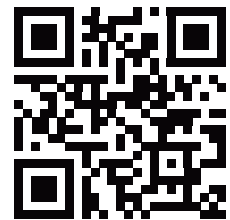

Duration: 2 days, 6 hours per day

Best Suited For: Installers new to APOC systems or installers new to roof coatings and restoration.

☑ HANDS ON
☑ PRODUCT KNOWLEDGE
☑ INDUSTRY TRENDS
☑ UPGRADED LOYALTY PROGRAM STATUS

THE GOLD STANDARD IS GOLD CERTIFIED.
