

CLOSEOUT FABRIC
SPECIALIST

Product Catalog

Based in South St. Paul, Minnesota, Midwest Fabrics is a third generation family owned Upholstery Fabric and Supply company that dates back to 1983. We specialize in automotive, marine, upholstery fabrics, as well as foams and other related products.

Midwest Fabrics was originally a spin-off of Bear Upholstery, a past furniture-oriented supply company in South St. Paul, Minnesota, and the business has continued to grow each year since over a period of three decades.

The majority of the products we stock are automotive vinyls and fabrics, but we also deal in marine vinyl, furniture fabrics, and outdoor material. As closeout specialists, we invite you to call us if you have an inventory of fabrics or vinyls to dispose of or if you are just getting started and looking to fill you inventory.

While we service the entire United States, we physically cover the upper Midwest states of Minnesota, Wisconsin, North Dakota, South Dakota, Montana, Nebraska, Iowa and Illinois.

We hope you find what you are looking for and look forward to servicing all of your Upholstery fabric needs!

HOW CAN I ORDER?? You have several options:

1. Order online at www.midwestfabrics.com
2. Call in at 800-324-0960 or local 651-451-6289

UPS

Midwest Fabrics has daily pick up schedule to ensure you get your package in a timely matter.

Closeout Specialist for over 35 years!

Fabric Sample Ring

At Midwest Fabrics we offer a fabric sample ring with over 400 samples that are 4x7" each so that your clients can get a good idea of color and pattern. The ring contains approximately 70% automotive and 30% furniture upholstery. Many of these are closeouts and hard to find ORIGINAL AUTOMOTIVE fabrics.

Fabric Ring Pricing:

Cut yardage: 14.95 linear yard

5 yards or more: 10.95 linear yard

If you have a larger order of 25 yards or more please call for special pricing.

Vinyl Sample Ring

We also offer a vinyl sample ring with over 400 samples that are 4x7" each so that your customer can get a good idea of color and grain. 70% of the vinyl is automotive, 20% marine, and 10% furniture. Prices vary from as low as 6.95 linear yard to 26.95 a linear yard.

Headliner/ Flexform Sample Ring

We also have a headliner/ flexform sample ring with samples that are 4x7" each so that you customer can get a good idea of color and texture. There is approximately 40 of the most popular 60" wide headliners on this ring as well as 15 colors of trunk liner (54") and flexform (40").

Headliner Pricing

Cut yardage: 11.95

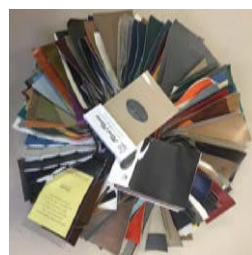

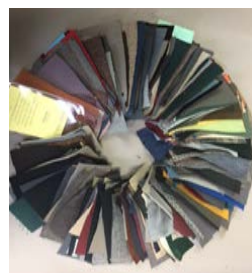

5 yards or more: 9.95

Trunkliner/ Flexform Pricing:

Cut yardage: 7.95

10 yards or more: 6.95

All of our sample rings are 25.00 each, when you purchase 50.00 or more off of the purchased ring you will receive a 25.00 credit on that invoice. Your basically getting our samples FREE!

Adhesives

Pro Foam & Fabric Spray Adhesive

This specialty adhesive utilizes a high solids (22%) web spray and an orange coverage indicator for the needs of the upholstery and foam professional. The heavy spray easily bonds open cell and closed cell material with quick set up and fast initial tack. Flexibility and a forgiving open time make it easy to use on even the most difficult foam projects. Non chlorinated and without ozone depleters, it is truly an installer's partner.

Single Can \$6.95
Case (12 cans) \$69.50 (\$5.79/can)

Misty Heavy Duty Spray Adhesive

This high solids (20%) webbing adhesive provides the maximum performance in an adhesive aerosol. Heavy spray pattern is ideal for uneven or porous substrate bonding. Formulated without chlorinated solvents or ozone depleters, this industrial grade formula provides waterproof and flexible bonds for even the toughest jobs.

Single Can \$7.95
Case (12 cans) \$69.48 (\$5.79/can)

K-Grip Adhesive 201

K-Grip adhesives are designed to spray on foam, fabric, wood, and other applications.

Either Red or Clear \$38.95

K-Grip 202 Plus Adhesive Spray

K-Grip Plus is great for headliners, high heat adhesive. Applications include marine, headliner, carpet.

1 Gallon \$49.95

K-Grip Cleaner/Thinner 200 Solvent

Thinner/Cleaner is excellent for thinning out 201 K Grip when it gets to thick and to clean spray guns.

1 Gallon \$39.95

Performance High-Temp Trim Adhesive PERFORMANCE

This high-temp trim adhesive has superior bond strength that bonds standard headliners, carpets, and foams. Adjustable nozzle and web spray pattern. High heat resistant.

Single Can \$11.95
Case (12 cans) \$131.40 (\$10.95/can)

Landau Top & Trim High Heat Resistant Contact Cement

A sprayable contact adhesive especially developed to meet the requirements of the automobile refurbished after market business. Has excellent application properties and forms a high strength, high heat resistant bond that is resistant to water, many household chemicals and the effects of aging. It may be used to bond cloth, leather, laminates, wood veneers, upholstery, carpeting, headliners and many similar materials, to metal, rigid polyurethane foam, and fiberboard in automobile restoration and customizing.

1 Gallon \$34.95
5 Gallon \$139.00 (\$27.80/gal)

VLP 1oz Adhesive

Vinyl Leather Repair. Apply to small or large tears to repair. net 1 Fl. Oz.

\$4.95

VLP 12oz Adhesive

Clear, high strength tear repair for most types of vinyl. net 12 Fl. Oz.

\$18.95

Vinyl Leather Cleaner

Perfect for automotive and furniture and upholstery professionals. Cleans, protects, and restores vinyl tops and white walls to "like new" appearance. Leaves a finished touch of elegance - contains mink oil. Easily removes stains, smudges, fingerprints, salt, and dirt. Ideal for use on naugahyde, vinyl, and leather.

\$6.50

Dry Silicone Spray

Stops squealing, sticking, and binding of machinery. Dries rapidly; leaves no greasy or oily film. Retards corrosion; makes cleaning easier and quicker. Protects and preserves equipment. Saves time and labor. Speeds cutting and sewing; facilitates fabric flow. Prevents power tools from binding. Long lasting residual performance.

\$8.95

C-60 Solvent Cleaner & Degreaser

Designed for use in the art or picture framing studio; graphic arts, signs or screen print show; or sewing trades environment. Cleans electric motors and machines while running - will not disrupt production schedules. Removes ink, dirt, grease, oil, fresh paint, etc. Quick drying; non-flammable; low in toxicity. Leaves no residue. Not for use on plastics.

\$9.95

Glue Sticks

10" Surebinder all purpose stick.

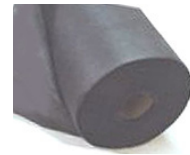

20 sticks \$12.95

Accord Cloth

39" width
Accord cloth is inexpensive dust cover cloth made for under couches and chairs.

Roll \$39.00

Synthetic Cotton

Soft pure white made from 100% recycled materials. 17 lbs per roll

Roll \$39.50

Dacron-Bonded Polyester 3/4 ounce

This polyester fiber wrap is 3/4 ounce per square foot. It is the weight that has become the industry standard. The fiber is manufactured with the fibers in a horizontal orientation to allow for easy splitting if desired.

Roll \$35.00

Jute Burlap

This jute burlap is the finest quality imported burlap. 50 yards per roll. 40" wide/10 oz. Natural Jute Color.

50 yards \$79.50
10 yards \$17.90

Clear Plastic - Ring #4072

30 gauge plastic. 54" wide. Works great for boat windows, tent windows, etc. Strong plastic for all your needs.

\$14.95/yard

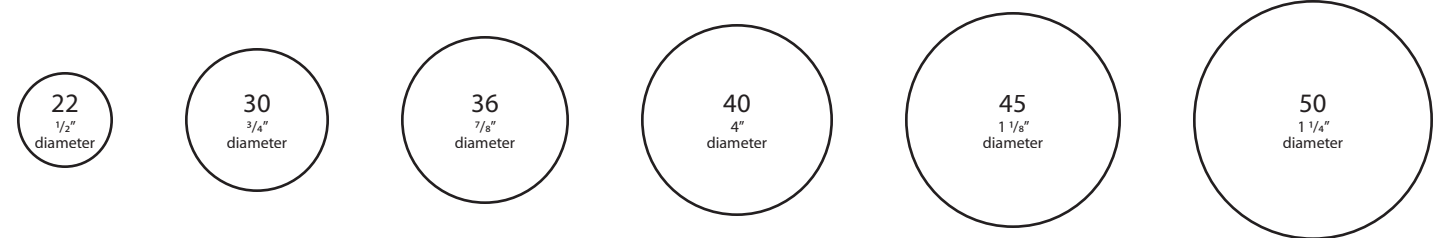

Smoke Plastic - Ring #3276

20 gauge plastic. 54" wide. Works great for boat top windows, tent windows, etc.

Cut yard \$9.95
5 or more \$8.95/ea.

Specifications

Finished Width: 54 inches
 Standard Weight: 29.25 +/- 1.5 ounces per linear yard
 Nominal Total Thickness: .045 +/- .0045 inches (45 +/- 4.5 mils)
 Abrasion Resistance: No significant wear after 100,000 double rubs with #8 cotton duck using the Wyzenbeek test method
 Roll Length: 40 linear yards
 Cold Crack: -25 F
 1000 Hours WeatherOmeter Resistance

Flame Resistance

Manufactured to meet the following flammability* requirements:
 UFAC Class 1
 California 117, Section E
 FMVSS 302
 BIFMA Class A

*This term and corresponding data refer to typical performance in the specific test indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions.

Care and Cleaning Instructions

This product has been developed to emulate the look and feel of soft leather. The unique super dull finish is designed to be low burnishing, non-polishing and resistant to ultra violet exposure. Allante vinyls have superb tailoring qualities, which make pre-heating and steaming unnecessary and not recommended in the fabrication process. Because of the special leather-like finish, additional precautions should be observed when processing and cleaning. Please avoid contact with marking inks, glues and other staining materials that may damage vinyl during the manufacturing process. Protecting seating with a clean polyethylene cover, as is common in the automotive industry, should enable you to deliver a stain free unit to the customer.

If despite all precautions, staining material does come in contact with Allante vinyls, cleaning should be immediate and should follow these instructions:

- Dry soil, Dust and Dirt, Dried on Dirt: Remove with soft cloth dampened with water.
- Variation in Surface Gloss: Wipe with a soft cloth dampened with water. Allow to air dry.
- Stubborn Dirt: Wash with a soft cloth moistened with a mild soap and water. Rinse with clean water.
- Stubborn Spots and Stains: Spray with either Formula 409®, or Tannery Car Care Cleaner®, and rub with a soft cloth. Rinse with clean water.
- Liquid Spills: Wipe immediately with a clean absorbent cloth. Rinse with clean water.
- Food, Grease, and Oily Stains: Spray immediately using either Formula 409®, or Tannery Car Care Cleaner®, wiping with a soft cloth. Take care not to extend the area of contamination beyond its original boundary. Rinse with clean water.

Allante Vinyls should be periodically cleaned to maintain their appearance and prevent build-up of dirt and contaminants. Any stain, spill or soiling should be cleaned up promptly to prevent the possibility of permanent staining. When cleaning, always rub gently.

Caution: Powdered abrasives, abrasive cleaners, and steel wool damage vinyl, as do strong solvents, lacquer solvents and inks. Lotions, suntan oil, waxes and polishes, etc., contain oils and dyes that can cause stiffening and staining of vinyls. Never use heat guns or hair dryers.

Note: Stronger cleaners, detergents and solvents may be effective in stain removal, but can cause either immediate damage or slow deterioration. Many such materials are wrongly recommended in Marine and other related industries. The use of such cleaners is at the owner's own risk.

This information is offered for your general guidance only. It is accurate to the best of our knowledge at the time of printing, but it is not intended to relieve the user from its responsibility to investigate and understand other pertinent sources of information and to comply with the laws and procedures applicable to the safe handling and use of this material.

Recommended Applications

- Automotive Seating and Trim
- Conference Room Seating
- Executive Seating
- Foyer and Lounge Seating
- General Office Seating
- Home Office Seating
- Hotel/Motel Seating
- Residential Seating
- RV Seating and Trim
- Work Station Seating

Will pass IMO A.652(16) when tested with suitable components

Specifications

- 100% + Stretch in both directions
- Nominal Total Thickness: 0.0048 inches (48 mils ± 5 mils)
- Standard Weight: 36 ± 2.25 oz/l. yd.
- Cold Resistance: Passes -60° F (Fed. Std. 191A 5874)
- 1000 hrs Weather Resistance (ASTM G135-00a Cycle 1, Formerly G23-99)
- Abrasion Resistance: No significant wear after 30,000 double rubs with #8 cotton duck using the Wyzenbeek test method.
- Width: 54 inches
- Roll Length: 40 yds.

Flame Resistance

- Manufactured to meet the following flammability* requirements:
- FMVSS-302
 - California Flammability Regulation (Bulletin 117, Section E)
 - BIFMA Class A
 - UFAC Class 1

*This term and all corresponding data refer to typical performance in the specific test indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions.

Note: This information is accurate to the best of our knowledge at the time of printing, but is not intended to relieve the user from its responsibility to comply with all procedures applicable to the safe use of this product.

Care and Cleaning Instructions

In general, most common stains can be cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help loosen soiling materials from the depressions of embossed surfaces. For more stubborn stains, use Formula 409® commercially available mild detergent† in accordance with the manufacturer's instructions.

Full strength rubbing alcohol or mineral spirits†† may be tried cautiously as a last resort on very stubborn stains, if the above suggestions do not work. Indiscriminate use of any solvent, or solvent containing cleaner, can severely damage or discolor vinyl.

Note: Detergent should never be used on a regular or repeated basis for normal cleaning. Morbern recommends repeated rinsing with clear water after any cleaning procedure.

† When opening a new container, please test the cleaner in an inconspicuous area as cleaner manufacturers may change formula without notice.

Morbern cannot be responsible when unknown changes are made by the manufacturer of the cleaner to their formulations between our 6-month verification intervals.

††Caution: Exercise care as these solvents are flammable. Use only small quantities of solvents and keep clear of any sources of ignition. Wear protective gloves and ensure cleaning takes place in a well ventilated area.

Recommended Applications

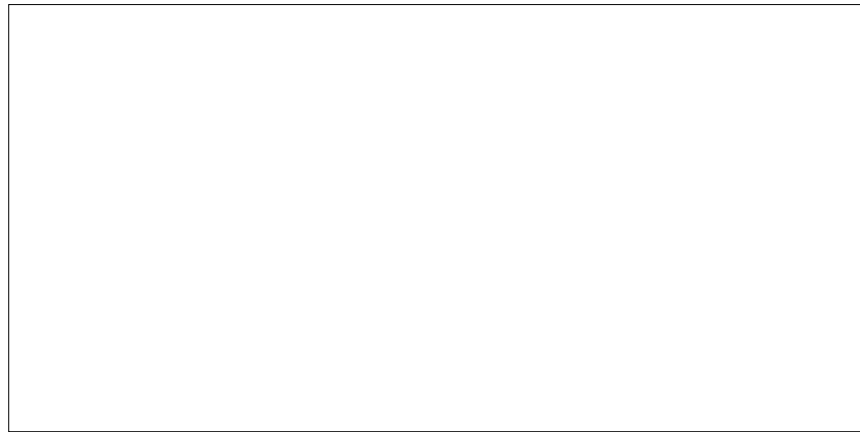

- All Terrain Vehicle
- Automotive
- Extreme Weather Applications
- Golf Cart Seating
- Marine
- Motorcycle
- Ski Lift Chairs
- Snowmobile
- Tractor Seating
- Watercraft

SUGGESTED SEWING PROCEDURES

1. Do not use monofilament sewing thread; use only multi-filament nylon or polyester.
2. The seam or fabric overlap should be 1/2"-3/4" wide, preferably 3/4" to permit a clean double stitching.
3. Double stitching with 7-8 stitches/inch is preferred.
4. For best results a foam with a density greater than 1.8 lb/cubit ft. is recommended.

Arcadia

OUTDOOR FABRIC

The Arcadia line of high-UV outdoor fabric provides the ultimate in lasting durability for all your outdoor umbrellas, furniture and more. Composed of 100% solution dyed polyester, it is rated for 1,000 hours of lightfastness. Its polyurethane coating is water-repellent for extra durability. With 600D x 600D denier textured yarn, it weighs 7 oz. per square yard, comes in 60" width and has a density of warp 45 x weft 31 per square inch.

Arcadia 5-Year Limited Warranty: This limited warranty protects the original purchaser should the fabric become unserviceable due to color or strength loss from normal usage and exposure conditions, including sunlight, mildew, and atmospheric chemicals. The limited warranty coverage period is five years from the date of original installation. This limited warranty covers the fabric only. This limited warranty is valid with proof of purchase from the original purchaser. This limited warranty does not cover normal fabric care and cleaning; damage from misuse, abuse, or improper installation; or costs associated with replacement of the fabric, including labor and installation.
