ASSEMBLY

1 Take out the two L-shaped brackets.
A

2 Unfold the horizontal pole. Attached the horizontal pole to the two L-Shaped Bracket.
B

3 Intert the two base poles into the two L-shaped brackets.
D
 Do not reverse: Install the pipes according to the labels on the pipes and "L" "R" as shown in the figure.

4 Unfold the four FRP poles.
 (C)

5 Insert the four FRP poles into the two base poles and the two L-shaped brackets.
 (D) (C) (A)

Slip the two net sleeves over the FRP poles. And hook the four loops in the each corner as the diagram below.
 (E)

7 Rip the net of the mesh. Lock the horizontal pole and two base poles.
 (B) (D)

ATTENTION

- ▶ Please use the H fixing plugs to ensure stability. When used indoors, please use sandbags and water bags for extra steadiness.
- ▶ To prevent dangers to the surroundings, especially the area behind the net, please choose the practicing site carefully and make sure nobody is around before playing.
- ▶ For safety, please hit the ball in close range (as long as the club cannot touch the frame with your arm fully stretched) and be closer if you can control the stroking angle or are using a short club.
- ▶ Please don't use if the net or the frame is broken.
- ▶ Please use light practice ball for safety when practiced indoors or in a residential area.
- ▶ To protect the indoor floor, please put a pad under the frame.
