- ⑭ Please keep in a dry place without moisture.

1. Components

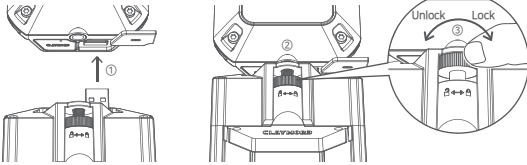

2. Contents

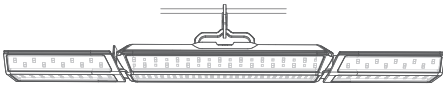

3. Operation

● Connecting to MULTI FACE main body.

Connect the MULTI WING connector to the left and right OUTPUT ports (USB-A) of the MULTI FACE. After connecting, screw the fixing screw at the top into the tripod socket to fix it.

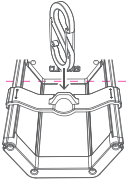

If you connect MULTI WING in both ends, you can experience expanded light distribution and brighter light.

● Using in separation (+extension cable)

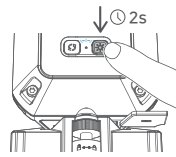

Connect MULTI FACE and MULTI WING with a USB A(M)-A(F) extension cable.
※ App, LED color changing, dimming is available.

● Sliding hook

When using MULTI WING in separation with extension cable, you can hang with carabiner. Possible to adjust the angle of the light by sliding the hook back and forth.

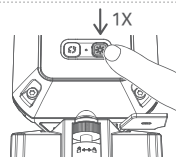

● LED Lantern Function

ON/OFF

Press and hold (ON/OFF) button on the left and right sides of the MULTI FACE for 2sec to turn on light. (status indicator ON). Repeat to turn off light.

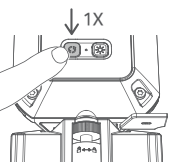

※ If you don't use MULTI WING, turn off (ON/OFF) power to reduce unnecessary standby power consumption. (status indicator OFF)

5 STEP Dimming

When light is ON, press (Dimming) button to increase brightness. Repeat to decrease brightness.

※ Light blinks once when Maximum and Minimum brightness is reached.

LED Color Change

When light is ON, press (Color Change) button shortly to adjust the light color in 4 modes.
Cool→Warm→White→Breeze

Cool	LED light with 6500K, cool light feels like ordinary fluorescent light
Warm	LED light with 3000K, warm light feels like ordinary gas lantern
White	LED light with 4500K, a neutral color of daylight and comfortable feeling
Breeze	The light swaying in the softly blowing wind

※ This lantern contains memory function that returns to the last setting when turn off and on.
