[WINES]

2017 AMELIA PARK TRELLIS SHIRAZ

Varieties

Shiraz

Region

Frankland River

Vineyards

We source a single vineyard in the Frankland River Region for this wine. This region is perfectly suited to producing many red and white varieties due to its continental climate combined with low vigour and moderate ripening conditions. We have chosen this particular vineyard for its ability to produce typical Frankland River Shiraz, which as a result of being a cool climate, is intense in colour with ripe flavours yet is elegant in style and structure.

Season

As with every vintage, challenges arise from mother nature. Testing weather conditions during the ripening period were overcome with lots of hard work and attention in the vineyards to ensure pristine fruit was delivered to the winery. A slow start to vintage, 3-4 weeks later than the previous few years, has meant a later finish which finally ended for us the first week of May. The slow and extended ripening period has delivered beautifully balanced wines, with great natural acidity and elegance.

Harvest Date

March 2017

Winemaking

The grapes were harvested during the cool of the night to ensure quality was maintained. A cool fermentation took place in static fermenters and gentle extraction of colour and flavour was achieved over a two week period. After primary ferment the wine was gently pressed off skins to a mix of new and older larger format French oak barrels. After 12 months maturation in barrel the wine was blended prior to bottling.

Tasting Notes

This wine is made with fruit from the Frankland River Region of Western Australia, which produces wine with great richness of flavour. A vibrant bouquet of jubes and pink peppercorns with hints of licorice. The palate has beautiful balance and length with mulberries and cherries at the fore, some lovely spicy notes to finish. Aged in French oak for twelve months, this wine will benefit from cellaring.

Tradition. Craft. Quality.
