

HAND SEPARATOR

PM

Versatile and Powerful Ceramic Powdered Bulk Handler

- Designed for fast, efficient collecting, sorting and separating small ferrous materials.
- Suitable for handling nails, screws, nuts, bolts and usual fastening objects
- Lightweight and convenient to operate
- Discharging the collected material is easy and intuitive
- Stainless Steel (SS) shell, handle grip and powder coated body

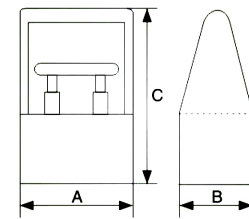

Stainless steel shell and powder coated.

- Very suitable for mass production operations for handling WIP inventory.
- Useful for collecting sharp ferrous objects and reject fasteners without requiring to touch these with one's fingers.
- Useful for collecting tramp ferrous parts from hard to access areas.
- Pick up multiple quantities of ferrous objects without endangering oneself.

All dimensions in metric units

Model	A (Length)	B (Width)	C (Height)	Force (Kg)	Weight (Kg)
MBL-80	80	80	150	7	1.4
MBL-100	110	110	190	12	2.2
MBL-200	215	110	130	20	4.2

Due to continuous upgradation in design there could be changes in specification. Other sizes on request. Before ordering, contact Supreme Magnets or your nearest dealer to confirm the suitability of this model for your application.

SWARF BUSTER

PM

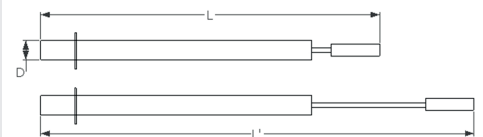

Hand Held Bicycle Pump Magnetic Rod Separator

- Very handy tool for the factory or workshop and suitable for general purpose cleaning and separation applications.
- Available in 3 sizes, 200mm, 300mm & 400mm excluding the handle with standard diameter of 32mm (larger than industry average).

- Just pass the Rod magnet separator around the waste scrap and pick up ferrous particle impurities at the tip of the rod.
- The Rod magnet separator can attract iron/steel pieces or iron substances in liquids, in powder or among grains and/or granules, such as attracting iron substances from lathes, attracting small iron needles and pieces fallen on the ground or separating iron/steel scrap from other materials.
- Once enough scrap is picked up, just pull the piston handle and release the waste in a bin or some desired location.
- Ideal for picking up swarf, handling sharp parts or off cuts, cleaning non-ferrous scrap and recovering steel items from non-ferrous scrap.
- Made from stainless steel tube and powerful neo magnets in a special dual, tri & quad circuitry.
