

**What tools and glue are needed?**

We recommend Deluxe Materials "Laser Glue" and "Glue 'n' Glaze" for the windows.

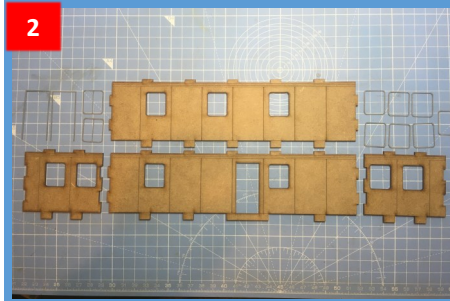

A sharp craft knife, Fine Wet & Dry (400 grit), needle files, modelling tweezers and elastic bands or suitable clamps.

**WELCOME TO YOUR INTENTIO MODEL RAILWAYS PRECISION SCALE MULTI MEDIA KIT**  
CAREFULLY READ THROUGH THESE INSTRUCTIONS AND THOROUGHLY FAMILIARISE YOURSELF WITH THE PARTS BEFORE STARTING ASSEMBLY. ALWAYS DRY FIT FIRST.

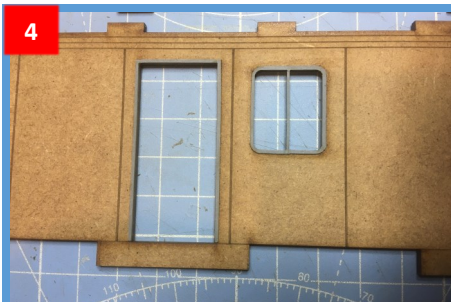

**1**  
When removing parts from the frames take care to clean any remaining attachment "nibs"

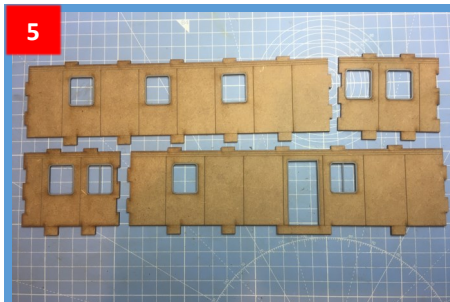

**2**  
Prepare the 4 walls (2, 3, 4, & 5), door frame (13) and window frames (14 & 15 x8)

**3**  
Glue the window frames to the walls using the engraved lines as a guide

**4**  
Glue the door frame to the wall using the engraved lines as a guide

**5**  
You should end up with 4 walls with a frame around each opening as shown

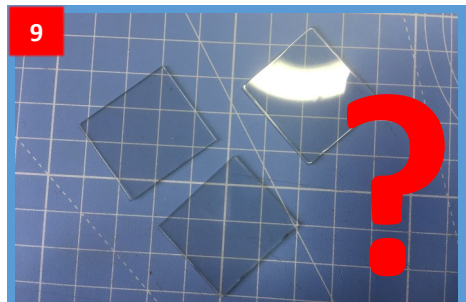

**6**  
Glue the 4 walls using the base as a guide  
**\*\*DO NOT GLUE THE WALLS TO THE BASE\*\***

**7**  
Glue the roof (6) to the walls

**8**  
Use a little weight to ensure the roof sits flat whilst the glue dries

**9**  
At this point you might think to fit the glazing but it may be better to wait until after painting

**10**  
Glue the support plates (8 x4) to the frames (7)

**11**  
Glue the pads (9) to the bottom (the thicker frame), of the support frame

**12**  
Glue the steps (10, 11, & 12) together and you should have parts that look like this

13 Pre bend the corner trims (16) as shown

14 Glue the corner strips (16 x4) into position

15 Before the next step you may want to consider if you want to add lighting or any interior details

16 Fit the glazing using a small amount of glue to ensure there is no "squeeze out"

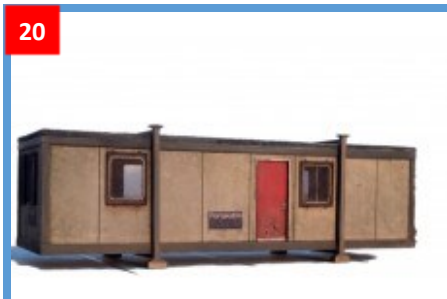

17 Glue the door (17) into a position of your choice (open, closed or any point between)

18 The last step is to glue the building to the base. A roof covering is not supplied but a plain sheet of paper, thin card, or 400 wet & dry does a great job

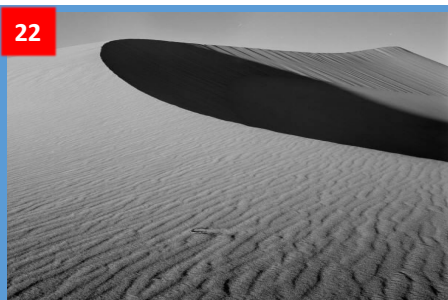

19 Finished

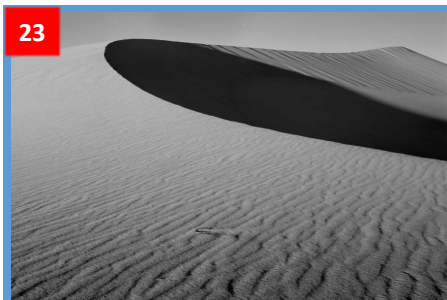

20 Position your finished building on your layout for years of use
