Quick Start Guide

To set up Smart Teddy you will need:

✓ Smart Teddy

✓ Internet access

2.4 GHz

✓ Your phone with My Smart Teddy app

Download from App Store

Download from Google Play

Please Note:

Remember to charge Smart Teddy or for at least 30 minutes before first use.

30 min

### Important Note:

○ 2.4 GHz
○ 5 GHz

If your home Wi-Fi has both 5GHz and 2.4GHz indicators, please connect to the 2.4GHz network.

When your Teddy is updating, please keep him within close range of your WLAN signal

Setting up is easy. Follow these simple steps:

1 Enable Bluetooth on your phone

ON

2 Turn Smart Teddy ON

OFF   ON

3 Open My Smart Teddy app and connect your device with Teddy.
